Preface

From my experience, the demands for good teaching have increased dramatically in recent years. To aid instructors in this challenging environment, I have worked hard to make this Instructor's Manual a valuable teaching aid that should help save you time in preparing your class.

Rather than proceeding to read this chapter by chapter, this Instructor's Manual is broken into four parts. Part One contains pedagogic suggestions on such topics as how to organize the course and how to use the ancillaries. Part Two offers chapter overviews and teaching tips that I have found useful in the classroom. Part Three contains the answers and solutions to the end-of-chapter problems. Part Four provides the transparency masters for the chapter outlines. I have found that this organizational structure makes it easy to use the Instructor's Manual.

I believe that this Instructor's Manual will be an extremely valuable tool in teaching the money and banking course. I would appreciate any suggestions or comments for improving the manual. Please direct all correspondence to me at the address below:
