Chapter 2

Financial Statements and the Accounting System

QUESTIONS

1.
 - a. Common asset accounts: cash, accounts receivable, notes receivable, prepaid expenses (rent, insurance, etc.), office supplies, store supplies, equipment, building, and land.
 - b. Common liability accounts: accounts payable, notes payable, and unearned revenue, wages payable, and taxes payable.
 - c. Common equity accounts: common stock and dividends.
2. A note payable is formal promise, usually denoted by signing a promissory note to pay a future amount. A note payable can be short-term or long-term, depending on when it is due. An account payable also references an amount owed to an entity. An account payable can be oral or implied, and often arises from the purchase of inventory, supplies, or services. An account payable is usually short-term.
3. There are several steps in processing transactions: (1) Identify and analyze the transaction or event, including the source document(s), (2) apply double-entry accounting, (3) record the transaction or event in a journal, and (4) post the journal entry to the ledger. These steps would be followed by preparation of a trial balance and then with the reporting of financial statements.
4. A general journal can be used to record any business transaction or event.
5. Debited accounts are commonly recorded first. The credited accounts are commonly indented.
6. A transaction is first recorded in a journal to create a complete record of the transaction in one place. (The journal is often referred to as the book of original entry.) This process reduces the likelihood of errors in ledger accounts.
7. Expense accounts have debit balances because they are decreases to equity (and equity has a credit balance).
8. The recordkeeper prepares a trial balance to summarize the contents of the ledger and to verify the equality of total debits and total credits. The trial balance also serves as a helpful internal document for preparing financial statements and other reports.
9. The error should be corrected with a separate (subsequent) correcting entry. The entry's explanation should describe why the correction is necessary.

10. The four financial statements are: income statement, balance sheet, statement of retained earnings, and statement of cash flows.
11. The balance sheet provides information that helps users understand a company's financial position at a point in time. Accordingly, it is often called the statement of financial position. The balance sheet lists the types and dollar amounts of assets, liabilities, and equity of the business.
12. The income statement lists the types and amounts of revenues and expenses, and reports whether the business earned a net income (also called profit or earnings) or a net loss.
13. An income statement user must know what time period is covered to judge whether the company's performance is satisfactory. For example, a statement user would not be able to assess whether the amounts of revenue and net income are satisfactory without knowing whether they were earned over a week, a month, a quarter, or a year.
14. (a) Assets are probable future economic benefits obtained or controlled by a specific entity as a result of past transactions or events. (b) Liabilities are probable future sacrifices of economic benefits arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events. (c) Equity is the residual interest in the assets of an entity that remains after deducting its liabilities. (d) Net assets refer to equity.
15. The balance sheet is sometimes referred to as the statement of financial position.
16. Debit balance accounts on the Apple balance sheet include: Cash and cash equivalents; Short-term marketable securities; Accounts receivable; Inventories; Deferred tax assets; Vendor non-trade receivables; Other current assets; Long-term marketable securities; Property, plant and equipment, net; Goodwill; Acquired intangible assets, net; Goodwill; Acquired intangible assets, net; Other assets.

Credit balance accounts on the Apple balance sheet include: Accounts Payable; Accrued expenses; Deferred revenue; Commercial paper; Deferred revenue—non-current; Long-term debt; Other non-current liabilities; Common stock; Retained earnings; Accumulated other comprehensive income.
17. The asset accounts with *receivable* in its account title are: Accounts receivable, net; Receivable under reverse repurchase agreements; Income taxes receivable, net. The liabilities with *payable* in the account title are: Accounts payable; Securities lending payable; Income taxes payable, net; Income taxes payable, non-current.
18. Samsung's balance sheet lists the following current liabilities: Trade and other payables; Short-term borrowings; Other payables; Advances received; Withholdings; Accrued expenses; Income tax payable; Current portion of long-term borrowings and debentures; Provisions; Other current liabilities; Liabilities held for sale.

Samsung's balance sheet lists the following noncurrent liabilities: Debentures; Long-term borrowings; Long-term other payables; Net defined benefit liabilities; Deferred income tax liabilities; Provisions; Other non-current liabilities.

QUICK STUDIES

Quick Study 2-1 (10 minutes)

The likely source documents include:

- a. Sales ticket
- d. Telephone bill
- e. Invoice from supplier
- h. Bank statement

Quick Study 2-2 (5 minutes)

- a. A Asset
- b. A Asset
- c. A Asset
- d. A Asset
- e. A Asset
- f. EQ Equity
- g. L Liability
- h. L Liability
- i. EQ Equity

Quick Study 2-3 (5 minutes)

- a. E Expense 655
- b. R Revenue 406
- c. A Asset 110
- d. A Asset 191
- e. L Liability 208
- f. A Asset 161
- g. L Liability 245
- h. EQ Equity 307
- i. E Expense 690

Quick Study 2-4 (10 minutes)

- | | | | | | |
|----|--------|----|-------|----|--------|
| a. | Credit | d. | Debit | g. | Credit |
| b. | Debit | e. | Debit | h. | Debit |
| c. | Debit | f. | Debit | i. | Credit |

Quick Study 2-5 (10 minutes)

- | | | | | | |
|----|--------|----|--------|----|--------|
| a. | Debit | e. | Debit | i. | Credit |
| b. | Debit | f. | Credit | j. | Debit |
| c. | Credit | g. | Credit | k. | Debit |
| d. | Credit | h. | Debit | l. | Credit |

Quick Study 2-6 (15 minutes)

a.

1) Analyze:

Assets		=	Liabilities	+	Equity
Cash	Equipment				Common Stock
7,000	+ 3,000	=	0	+	10,000

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 15	Cash	101	7,000	
	Equipment	167	3,000	
	Common Stock	307		10,000
	<i>Owner invests cash & equipment for stock.</i>			

3) Post

Cash	101	Equipment	167	Common Stock	307
7,000		3,000			10,000

Quick Study 2-6 (Continued)

b.

1) Analyze:

Assets	=	Liabilities	+	Equity
Office Supplies		Accounts Payable		
500	=	500	+	0

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 21	Office Supplies	124	500	
	Accounts Payable	201		500
	<i>Purchased office supplies on credit.</i>			

3) Post

Office Supplies	124
500	

Accounts Payable	201
	500

c.

1) Analyze:

Assets	=	Liabilities	+	Equity
Cash				Landscaping Revenue
4,000	=	0	+	4,000

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 25	Cash	101	4,000	
	Landscaping Revenue	403		4,000
	<i>Received cash for landscaping services.</i>			

3) Post

Cash	101
4,000	

Landscaping Revenue	403
	4,000

Quick Study 2-6 (Continued)

d.

1) Analyze:

Assets	=	Liabilities	+	Equity
Cash		Unearned Landscaping Revenue		
1,000	=	1,000	+	0

2) Record:

Date	Account Titles and Explanation	PR	Debit	Credit
May 30	Cash	101	1,000	
	Unearned Landscaping Revenue	236		1,000
	<i>Received cash in advance for landscaping services.</i>			

3) Post

Cash	101	Unearned Landscaping Revenue	236
1,000			1,000

Quick Study 2-7 (10 minutes)

- | | | |
|-----------|-----------|-----------|
| a. Debit | e. Debit | i. Credit |
| b. Credit | f. Credit | j. Debit |
| c. Credit | g. Credit | |
| d. Debit | h. Credit | |

Quick Study 2-8 (10 minutes)

The correct answer is a.

Explanation: If a \$2,250 debit to Utilities Expense is incorrectly posted as a credit, the effect is to understate the Utilities Expense debit balance by \$4,500. This causes the Debit column total on the trial balance to be \$4,500 less than the Credit column total.

Quick Study 2-9 (10 minutes)

- | | | | | | |
|----|---|----|---|----|---|
| a. | I | e. | B | i. | E |
| b. | B | f. | B | j. | B |
| c. | B | g. | B | k. | I |
| d. | I | h. | I | l. | I |

Quick Study 2-10 (10 minutes)

- a. Accounting under IFRS follows the same debit and credit system as under US GAAP.
- b. The same four basic financial statements are prepared under IFRS and US GAAP: income statement, balance sheet, statement of changes in equity, and statement of cash flows. Although some variations from these titles exist within both systems, the four basic statements are present.
- c. Accounting reports under both IFRS and US GAAP are likely different depending on the extent of accounting controls and enforcement. For example, the absence of controls and enforcement increase the possibility of fraudulent transactions and misleading financial statements. Without controls and enforcement, all accounting systems run the risk of abuse and manipulation.

Quick Study 2-11 (10 minutes)

$$\text{Debt ratio} = \frac{\text{Total liabilities}}{\text{Total assets}} = \frac{\$30,624 \text{ mil}}{\$39,946 \text{ mil}} = \underline{76.7\%}$$

Interpretation: Its debt ratio of 76.7% exceeds the 60% of its competitors. Home Depot's financial leverage, and accordingly its riskiness, can be judged as above average based on the debt ratio.

EXERCISES

Exercise 2-1 (10 minutes)

- 4 a. Prepare and analyze the trial balance.
- 1 b. Analyze each transaction from source documents.
- 2 c. Record relevant transactions in a journal.
- 3 d. Post journal information to ledger accounts.

Exercise 2-2 (10 minutes)

- | | | | | | |
|----|---|-------------|----|---|-----------|
| a. | 5 | “Three” | d. | 1 | “Asset” |
| b. | 2 | “Equity” | e. | 3 | “Account” |
| c. | 4 | “Liability” | | | |

Exercise 2-3 (5 minutes)

- | | | | | | |
|----|---|---------|----|---|------------------|
| a. | 1 | “Chart” | b. | 2 | “General Ledger” |
|----|---|---------|----|---|------------------|

Exercise 2-4 (15 minutes)

	Account	Type of Account	Normal Balance	Increase (Dr. or Cr.)
a.	Land	asset	debit	debit
b.	Cash	asset	debit	debit
c.	Legal Expense.....	expense	debit	debit
d.	Prepaid Insurance.....	asset	debit	debit
e.	Accounts Receivable.....	asset	debit	debit
f.	Dividends.....	equity	debit	debit
g.	License Fee Revenue	revenue	credit	credit
h.	Unearned Revenue	liability	credit	credit
i.	Fees Earned.....	revenue	credit	credit
j.	Equipment	asset	debit	debit
k.	Notes Payable	liability	credit	credit
l.	Common Stock.....	equity	credit	credit

Exercise 2-5 (15 minutes)

Of the items listed, the following effects should be included:

- a. \$28,000 increase in a liability account.
- b. \$10,000 increase in the Cash account.
- e. \$62,000 increase in a revenue account.

Explanation: This transaction created \$62,000 in revenue, which is the value of the service provided. Payment is received in the form of a \$10,000 increase in cash, an \$80,000 increase in computer equipment, and a \$28,000 increase in its liabilities. The net value received by the company is \$62,000.

Exercise 2-6 (15 minutes)

a.	Beginning accounts payable (credit)	\$152,000
	Purchases on account in October (credits)	281,000
	Payments on accounts in October (debits)	(?)
	Ending accounts payable (credit)	\$132,500
	Payments on accounts in October (debits)	<u>\$300,500</u>
b.	Beginning accounts receivable (debit)	\$102,500
	Sales on account in October (debits)	?
	Collections on account in October (credits)	<u>(102,890)</u>
	Ending accounts receivable (debit)	\$ 89,000
	Sales on account in October (debits)	<u>\$ 89,390</u>
c.	Beginning cash balance (debit)	\$?
	Cash received in October (debits)	102,500
	Cash disbursed in October (credits)	<u>(103,150)</u>
	Ending cash balance (debit)	\$ 18,600
	Beginning cash balance (debit)	<u>\$ 19,250</u>

Exercise 2-7 (25 minutes)

Aug. 1	Cash	6,500	
	Photography Equipment	33,500	
	Common Stock		40,000
	<i>Owner investment in business for stock.</i>		
2	Prepaid Insurance	2,100	
	Cash		2,100
	<i>Acquired 2 years of insurance coverage.</i>		
5	Office Supplies	880	
	Cash		880
	<i>Purchased office supplies.</i>		
20	Cash	3,331	
	Photography Fees Earned		3,331
	<i>Collected photography fees.</i>		
31	Utilities Expense	675	
	Cash		675
	<i>Paid for August utilities.</i>		

Exercise 2-8 (30 minutes)

Cash			
Aug. 1	6,500	Aug. 2	2,100
20	3,331	5	880
		31	675
Balance	6,176		

Office Supplies	
Aug. 5	880

Prepaid Insurance	
Aug. 2	2,100

Photography Equipment	
Aug. 1	33,500

Common Stock	
Aug. 1	40,000

Photography Fees Earned	
Aug. 20	3,331

Utilities Expense	
Aug. 31	675

POSE-FOR-PICS Trial Balance August 31		
	Debit	Credit
Cash	\$ 6,176	
Office supplies	880	
Prepaid insurance	2,100	
Photography equipment	33,500	
Common stock		\$40,000
Photography fees earned		3,331
Utilities expense	675	
Totals	<u>\$43,331</u>	<u>\$43,331</u>

Exercise 2-9 (30 minutes)

a.	Cash	100,750	
	Common Stock		100,750
	<i>Owner invested in the business for stock.</i>		
b.	Office Supplies.....	1,250	
	Cash.....		1,250
	<i>Purchased supplies with cash.</i>		
c.	Office Equipment	10,050	
	Accounts Payable		10,050
	<i>Purchased office equipment on credit.</i>		
d.	Cash	15,500	
	Fees Earned		15,500
	<i>Received cash from customer for services.</i>		
e.	Accounts Payable	10,050	
	Cash.....		10,050
	<i>Made payment toward account payable.</i>		
f.	Accounts Receivable.....	2,700	
	Fees Earned		2,700
	<i>Billed customer for services provided.</i>		
g.	Rent Expense	1,225	
	Cash.....		1,225
	<i>Paid for this period's rental charge.</i>		
h.	Cash	1,125	
	Accounts Receivable		1,125
	<i>Received cash toward an account receivable.</i>		
i.	Dividends.....	10,000	
	Cash.....		10,000
	<i>Paid cash dividends.</i>		

Exercise 2-9 (concluded)

Cash			
(a)	100,750	(b)	1,250
(d)	15,500	(e)	10,050
(h)	1,125	(g)	1,225
		(i)	10,000
Balance	94,850		

Accounts Payable			
(e)	10,050	(c)	10,050
		Balance	0

Common Stock			
		(a)	100,750
		Balance	100,750

Accounts Receivable			
(f)	2,700	(h)	1,125
Balance	1,575		

Dividends			
(i)	10,000		
Balance	10,000		

Office Supplies			
(b)	1,250		
Balance	1,250		

Fees Earned			
		(d)	15,500
		(f)	2,700
		Balance	18,200

Office Equipment			
(c)	10,050		
Balance	10,050		

Rent Expense			
(g)	1,225		
Balance	1,225		

Exercise 2-10 (15 minutes)

SPADE COMPANY Trial Balance May 31, 2016			
	Debit		Credit
Cash	\$ 94,850		
Accounts receivable	1,575		
Office supplies	1,250		
Office equipment	10,050		
Accounts payable		\$ 0	
Common stock		100,750	
Dividends	10,000		
Fees earned		18,200	
Rent expense	1,225		
Totals	<u>\$118,950</u>		<u>\$118,950</u>

Exercise 2-11 (20 minutes)

Transactions that created expenses:

b.	Salaries Expense.....	1,233	
	Cash		1,233
	<i>Paid salary of receptionist.</i>		
d.	Utilities Expense	870	
	Cash		870
	<i>Paid utilities for the office.</i>		

[Note: Expenses are outflows or using up of assets (or the creation of liabilities) that occur in the process of providing goods or services to customers.]

Transactions a, c, and e are not expenses for the following reasons:

- a. This transaction decreased assets in settlement of a previously existing liability, and equity did not change. Cash payment does not mean the same as using up of assets (expense is recorded when the supplies are used).
- c. This transaction involves the purchase of an asset. The form of the company's assets changed, but total assets did not change, and the equity did not decrease.
- e. This transaction is a distribution of cash to the owner. Even though equity decreased, the decrease did not occur in the process of providing goods or services to customers.

Exercise 2-12 (20 minutes)

Transactions that created revenues:

b.	Accounts Receivable	2,300	
	Services Revenue		2,300
	<i>Provided services on credit.</i>		
c.	Cash	875	
	Services Revenue		875
	<i>Provided services for cash.</i>		

[Note: Revenues are inflows of assets (or decreases in liabilities) received in exchange for goods or services provided to customers.]

Transactions that did not create revenues along with the reasons are:

- a. This transaction brought in cash, but this is an owner investment.
- d. This transaction brought in cash, but it created a liability because the services have not yet been provided to the client.
- e. This transaction changed the form of the asset from accounts receivable to cash. Total assets were not increased (revenue was recognized when the receivable was originally recorded).
- f. This transaction brought in cash and increased assets, but it also increased a liability by the same amount (no goods or services were provided to generate revenue).

Exercise 2-13 (25 minutes)

- a. Belle created a new business and invested \$6,000 cash, \$7,600 of equipment, and \$12,000 in automobiles in exchange for stock.
- b. Paid \$4,800 cash in advance for insurance coverage.
- c. Paid \$900 cash for office supplies.
- d. Purchased \$300 of office supplies and \$9,700 of equipment on credit.
- e. Received \$4,500 cash for delivery services provided.
- f. Paid \$1,600 cash towards accounts payable.
- g. Paid \$820 cash for gas and oil expenses.

Exercise 2-14 (30 minutes)

a.	Cash	6,000	
	Equipment	7,600	
	Automobiles	12,000	
	Common Stock		25,600
	<i>Owner investment in company for stock.</i>		
b.	Prepaid Insurance	4,800	
	Cash		4,800
	<i>Purchased insurance coverage.</i>		
c.	Office Supplies	900	
	Cash		900
	<i>Purchased supplies with cash.</i>		
d.	Office Supplies	300	
	Equipment	9,700	
	Accounts Payable		10,000
	<i>Purchased supplies and equipment on credit.</i>		
e.	Cash	4,500	
	Delivery Services Revenue		4,500
	<i>Received cash from customer for services provided.</i>		
f.	Accounts Payable	1,600	
	Cash		1,600
	<i>Made payment on payables.</i>		
g.	Gas and Oil Expense	820	
	Cash		820
	<i>Paid for gas and oil.</i>		

Exercise 2-15 (20 minutes)

Calculation of change in equity for part a through part d

	Assets	-	Liabilities	=	Equity
Beginning of the year	\$ 60,000	-	\$20,000	=	\$40,000
End of the year	105,000	-	36,000	=	<u>69,000</u>
Net increase in equity					<u>\$29,000</u>

a.	Net income	\$?
	Plus owner investments		0
	Less dividends		<u>(0)</u>
	Change in equity		<u>\$29,000</u>

Net Income = \$29,000

Since there were no additional investments or dividends, the net income for the year equals the net increase in equity.

b.	Net income	\$?
	Plus owner investments		0
	Less dividends (\$1,250/mo. x 12 mo.)		<u>(15,000)</u>
	Change in equity		<u>\$29,000</u>

Net Income = \$44,000

The dividends were added back because they reduced equity without reducing net income.

c.	Net income	\$?
	Plus owner investment		55,000
	Less dividends		<u>(0)</u>
	Change in equity		<u>\$29,000</u>

Net Loss = \$26,000

The investment was deducted because it increased equity without creating net income.

d.	Net income	\$?
	Plus owner investment		35,000
	Less dividends (\$1,250/mo. X 12 mo.)		<u>(15,000)</u>
	Change in equity		<u>\$29,000</u>

Net Income = \$9,000

The dividends were added back because they reduced equity without reducing net income and the investments were deducted because they increased equity without creating net income.

Exercise 2-16 (15 minutes)

HELP TODAY		
Income Statement		
For Month Ended August 31		
Revenues		
Consulting fees earned.....		\$ 27,000
Expenses		
Rent expense	\$ 9,550	
Salaries expense	5,600	
Telephone expense	860	
Miscellaneous expenses	<u>520</u>	
Total expenses		<u>16,530</u>
Net income		<u>\$ 10,470</u>

Exercise 2-17 (15 minutes)

HELP TODAY		
Statement of Retained Earnings		
For Month Ended August 31		
Retained earnings, July 31	\$	0
Add: Net income (from Exercise 2-16)	<u>10,470</u>	
		10,470
Less: Dividends	<u>6,000</u>	
Retained earnings, August 31	<u>\$</u>	<u>4,470</u>

Exercise 2-18 (15 minutes)

HELP TODAY Balance Sheet August 31			
<i>Assets</i>		<i>Liabilities</i>	
Cash.....	\$ 25,360	Accounts payable.....	\$ 10,500
Accounts receivable	22,360		
Office supplies.....	5,250		
Office equipment	20,000	<i>Equity</i>	
Land	44,000	Common stock	102,000
Total assets.....	<u>\$116,970</u>	Retained earnings *	<u>4,470</u>
		Total liabilities & equity	<u>\$116,970</u>

* Amount from Exercise 2-17.

Exercise 2-19 (15 minutes)

	(a)	(b)	(c)	(d)
<u>Answers</u>	<u>\$(28,000)</u>	<u>\$42,000</u>	<u>\$73,000</u>	<u>\$(45,000)</u>
Computations:				
Equity, Dec. 31, 2015.....	\$ 0	\$ 0	\$ 0	\$ 0
Owner's investments	110,000	42,000	87,000	210,000
Dividends	(28,000)	(47,000)	(10,000)	(55,000)
Net income (loss)	<u>22,000</u>	<u>90,000</u>	<u>(4,000)</u>	<u>(45,000)</u>
Equity, Dec. 31, 2016.....	<u>\$104,000</u>	<u>\$85,000</u>	<u>\$73,000</u>	<u>\$110,000</u>

Exercise 2-20 (20 minutes)

Description	(1) Difference between Debit and Credit Columns	(2) Column with the Larger Total	(3) Identify account(s) incorrectly stated	(4) Amount that account(s) is overstated or understated
a. \$3,600 debit to Rent Expense is posted as a \$1,340 debit.	\$2,260	Credit	Rent Expense	Rent Expense is understated by \$2,260
b. \$6,500 credit to Cash is posted twice as two credits to Cash.	\$6,500	Credit	Cash	Cash is understated by \$6,500
c. \$10,900 debit to the Dividends account is debited to Common Stock	\$0	—	Common Stock Dividends	Common Stock is understated by \$10,900 Dividends is understated by \$10,900
d. \$2,050 debit to Prepaid Insurance is posted as a debit to Insurance Expense.	\$0	—	Prepaid Insurance Insurance Expense	Prepaid Insurance is understated by \$2,050 Insurance Expense is overstated by \$2,050
e. \$38,000 debit to Machinery is posted as a debit to Accounts Payable.	\$0	—	Machinery Accounts Payable	Machinery is understated by \$38,000 Accounts Payable is understated by \$38,000
f. \$5,850 credit to Services Revenue is posted as a \$585 credit.	\$5,265	Debit	Services Revenue	Services Revenue is understated by \$5,265
g. \$1,390 debit to Store Supplies is not posted.	\$1,390	Credit	Store Supplies	Store Supplies is understated by \$1,390

Exercise 2-21 (15 minutes)

- a. The debit column is correctly stated because the erroneous debit (to Accounts Payable) is deducted from an account with a (larger assumed) credit balance.
- b. The credit column is understated by \$37,900 because Accounts Payable was debited — it should have been credited.
- c. The Automobiles account balance is correctly stated.
- d. The Accounts Payable account balance is understated by \$37,900. It should have been increased (credited) by \$18,950 but the posting error decreased (debited) it by \$18,950.
- e. The credit column is \$37,900 less than the debit column, or \$162,100 in total (\$200,000 - \$37,900).

Exercise 2-22 (10 minutes)

HEINEKEN N.V. Balance Sheet (in Euro millions) December 31, 2014			
Assets		Equity and liabilities	
Noncurrent assets	€ 28,744	Total equity	€ 13,452
Current assets	6,086	Noncurrent liabilities	12,846
		Current liabilities	8,532
Total assets	<u>€ 34,830</u>	Total equity and liabilities ..	<u>€ 34,830</u>

Exercise 2-23 (15 minutes)

a.

Co.	Liabilities	/	Assets	=	Debt Ratio	Net Income	/	Average Assets	=	ROA
1	\$11,765		\$ 90,500		0.13	\$20,000		\$100,000		0.200
2	46,720		64,000		0.73	3,800		40,000		0.095
3	26,650		32,500		0.82	650		50,000		0.013
4	55,860		147,000		0.38	21,000		200,000		0.105
5	31,280		92,000		0.34	7,520		40,000		0.188
6	52,250		104,500		0.50	12,000		80,000		0.150

- b. Company 3 relies most heavily on creditor (non-owner) financing with 82% of its assets financed by liabilities.
- c. Company 1 relies least on creditor (non-owner) financing at only 13%. This implies that 87% of the assets are financed by equity (owners).
- d. The companies with the highest debt ratios indicate the greatest risk. The two companies with the highest debt ratios are 2 and 3.
- e. Company 1 yields the highest return on assets at 20%; followed by Company 5 at 18.8%.
- f. As an investor, one prefers high returns at low risk. Company 1 is the preferred investment since it yields the lowest risk (debt ratio is 13%) and highest return on assets (20%).

Part 3

HV CONSULTING Trial Balance September 30			Debit	Credit
Cash	\$	12,665		
Accounts receivable		2,250		
Office supplies.....		2,000		
Office equipment		50,900		
Automobiles.....		16,500		
Building		160,000		
Land		40,000		
Accounts payable.....				\$ 5,600
Notes payable				170,000
Common stock				101,500
Dividends		2,800		
Fees earned				14,250
Salaries expense		3,600		
Utilities expense		<u>635</u>		
Total		<u>\$291,350</u>		<u>\$291,350</u>

Problem 2-5A (90 minutes)

Part 1

NETTLE DISTRIBUTION Balance Sheet December 31, 2015			
<i>Assets</i>		<i>Liabilities</i>	
Cash.....	\$ 64,300	Accounts payable.....	\$ 3,500
Accounts receivable	26,240		
Office supplies.....	3,160		
Trucks.....	148,000		
Office equipment	<u>44,000</u>	<i>Equity</i>	
Total assets.....	<u>\$285,700</u>	Total equity	<u>282,200</u>
		Total liabilities and equity...	<u>\$285,700</u>

NETTLE DISTRIBUTION Balance Sheet December 31, 2016			
<i>Assets</i>		<i>Liabilities</i>	
Cash.....	\$ 15,640	Accounts payable	\$ 33,500
Accounts receivable	19,390	Note payable.....	<u>40,000</u>
Office supplies.....	1,960	Total liabilities	<u>73,500</u>
Trucks.....	157,000		
Office equipment	44,000		
Building	80,000	<i>Equity</i>	
Land	<u>60,000</u>	Total equity	<u>304,490</u>
Total assets.....	<u>\$377,990</u>	Total liabilities and equity	<u>\$377,990</u>

Part 2

Computation of 2016 net income:

Equity, December 31, 2015.....	\$282,200
Equity, December 31, 2016	<u>(304,490)</u>
Increase in equity during 2016.....	<u>\$ 22,290</u>
Owner investment	35,000
Add net income	?
Deduct dividends (\$3,000 x 12)	<u>(36,000)</u>
Increase in equity during 2016.....	<u>\$ 22,290</u>

Therefore, net income must equal $(\$22,290 + \$36,000 - \$35,000) = \underline{\underline{\$ 23,290}}$

Part 3

Debt Ratio = $\$73,500 / \$377,990 = \underline{\underline{19.4\%}}$

Problem 2-6A (35 minutes)**Part 1**

MIN ENGINEERING Trial Balance May 31		
	Debit	Credit
Cash.....	\$37,641	
Office supplies.....	890	
Prepaid insurance	4,600	
Office equipment	12,900	
Accounts payable.....		\$12,900
Common stock		18,000
Dividends	3,329	
Engineering fees earned.....		36,000
Rent expense	<u>7,540</u>	
Totals.....	<u>\$66,900</u>	<u>\$66,900</u>

Part 2: Likely transactions (following order of trial balance).

1. Purchased \$890 of office supplies for cash.
2. Paid \$4,600 insurance premium in advance.
3. Purchased \$12,900 of office equipment on credit (with account payable).
4. Yi Min invested \$18,000 cash in the business in exchange for stock.
5. Paid \$3,329 cash for dividends.
6. Earned \$36,000 cash for engineering services.
7. Paid \$7,540 cash for rent expense.

Part 3

Report of Cash Received and Paid		
Cash received		
Owner investment	\$18,000	
Engineering fees	<u>36,000</u>	
Total cash received		\$54,000
Cash paid		
Office supplies	890	
Insurance premium	4,600	
Dividends	3,329	
Rent	<u>7,540</u>	
Total cash paid		<u>16,359</u>
Ending balance		<u>\$37,641</u>

Utilities expense	<u>540</u>	
Total	<u>\$95,100</u>	<u>\$95,100</u>

Problem 2-5B (60 minutes)

Part 1

TAMA CO. Balance Sheet December 31, 2015			
<i>Assets</i>		<i>Liabilities</i>	
Cash	\$ 20,000	Accounts payable	\$ 4,000
Accounts receivable	35,000		
Office supplies	8,000		
Office equipment.....	40,000		
Machinery	28,500		
Total assets	<u>\$131,500</u>		
		<i>Equity</i>	
		Total equity.....	127,500
		Total liabilities & equity.....	<u>\$131,500</u>

TAMA CO. Balance Sheet December 31, 2016			
<i>Assets</i>		<i>Liabilities</i>	
Cash	\$ 5,000	Accounts payable	\$ 12,000
Accounts receivable	25,000	Note payable.....	<u>250,000</u>
Office supplies	13,500	Total liabilities	262,000
Office equipment.....	40,000		
Machinery	28,500		
Building.....	250,000		
Land	50,000		
Total assets	<u>\$412,000</u>		
		<i>Equity</i>	
		Total equity.....	150,000
		Total liabilities & equity.....	<u>\$412,000</u>

Part 2

Calculation of 2016 net income:

Equity, December 31, 2015	\$127,500
Equity, December 31, 2016	<u>(150,000)</u>
Increase in equity during 2016	<u>\$ 22,500</u>
Owner investment during 2016	\$ 15,000
2016 Net income	?
Dividends during 2016 (\$250 x 12).....	<u>(3,000)</u>
Increase in equity during 2016	<u>\$ 22,500</u>

Therefore, 2016 income must equal (\$22,500+ \$3,000- \$15,000) = \$ 10,500

Part 3

Debt ratio = \$262,000 / \$412,000 = 63.6%

Problem 2-6B (35 minutes)**Part 1**

GOULD SOLUTIONS Trial Balance April 30

Reporting in Action — BTN 2-1

1. Apple reports (\$ millions):
\$120,292 in liabilities at September 27, 2014.
\$83,451 in liabilities at September 28, 2013.
\$57,854 in liabilities at September 29, 2012.
2. Apple reports (\$ millions):
\$231,839 in assets at September 27, 2014.
\$207,000 in assets at September 28, 2013.
\$176,064 in assets at September 29, 2012.
3. (\$ millions):
As of September 27, 2014 Debt Ratio = $\$120,292 / \$231,839$ = 51.9%
As of September 28, 2013 Debt Ratio = $\$83,451 / \$207,000$ = 40.3%
As of September 29, 2012 Debt Ratio = $\$57,854 / \$176,064$ = 32.9%
4. Apple employed more financial leverage as of September 27, 2014, when 51.9% of its assets were financed by debt, relative to September 28, 2013, when 40.3% of its assets were financed by debt. Consequently, its financing structure was more risky in its fiscal 2014 in comparison to its fiscal 2013.
5. Solution depends on the financial statements accessed.

Comparative Analysis — BTN 2-2

1. Apple (\$ millions)

Current year debt ratio: $\$120,292/\$231,839$ = 51.9%

One-year Prior debt ratio: $\$83,451/\$207,000$ = 40.3%

Two-year Prior debt ratio: $\$57,854/\$176,064$ = 32.9%

2. Google (\$ millions)

Current year debt ratio: $\$26,633/\$131,133$ = 20.3%

One-year Prior debt ratio: $\$23,611/\$110,920$ = 21.3%

Two-year Prior debt ratio: $\$22,083/\$93,798$ = 23.5%

3. Apple has the higher degree of financial leverage. Apple's debt ratio is markedly higher for the current year than that of Google (51.9% vs. 20.3%). This indicates that Apple carries more debt financing than Google. This also implies that Apple is attempting to use nonowner financing to make more money for its owners. This is fine provided Apple's return does not decline below that of what it pays nonowners for use of that money— this is the main source of financing risk.

Ethics Challenge — BTN 2-3

This case involves a conflict between the need for efficiency and the need for control. While it makes sense to take and process lunch orders quickly, this efficiency is being accomplished by a shortcut that greatly weakens control over cash receipts. Cash could be received and lost or stolen because there would be no initial record of how much was received.

The assistant manager's explanation about the head manager not arriving until 3 o'clock suggests that the head manager doesn't know about the proposed shortcut. Thus, the new employee is faced with the dilemma of deciding whether to accept the assistant manager's instructions, suggest to the assistant manager that the shortcut seems wrong, or to ask the head manager to confirm the instructions. Each of these alternatives involves personal risk.

It is possible that the assistant manager does not understand the potential for fraud and abuse if this shortcut is used. If the relationship between you and the assistant manager is such that you feel you can do so, you should explain your understanding of how the shortcut could lead to the problems of inaccurate records for tax purposes, gathering inaccurate marketing information, and abuse by other employees who might not be as honest as you and the assistant manager.

If the assistant manager insists, you may want to work as instructed to get an idea of whether the shortcut is being abused by the assistant manager and perhaps to find out discreetly whether the head manager knows about it. (Although, this behavior does involve personal risk of perceived collusion with the assistant manager.) If you conclude that the assistant manager is committing fraud, you should report the situation to the head manager as quickly as possible.

MEMORANDUM

To: Lila Corentine
From: _____
Subject: Financial statements explanation
Date: _____

The four major financial statements and their purposes are:

- ***Income statement*** describes a company's revenues and expenses along with the resulting net income or loss over a period of time. It helps explain how equity changes during a period due to earnings activities.
- ***Statement of retained earnings*** explains changes in retained earnings due to net income (or net loss) and any dividends over a period of time.
- ***Statement of cash flows*** identifies cash inflows (receipts) and outflows (payments) over a period of time. It also explains how the cash balance on the balance sheet changed from the beginning to the end of a period.
- ***Balance sheet*** describes a company's financial position (assets, liabilities, and equity) at a point in time.

These financial statements are linked to each other across time. Specifically, a balance sheet reports an organization's financial position at a ***point in time***. The income statement, statement of retained earnings, and statement of cash flows report on performance over a ***period of time***. These three statements link balance sheets from the beginning to the end of a reporting period. That is, they explain how the financial position of an organization changes from one point to another.

Taking It to the Net — BTN 2-5

1. The prior three years' net income or (loss) for Amazon are (\$ millions):
 2014 = \$ (241) 2013 = \$ 274 2012 = \$ (39)
2. The three years net cash *provided* by operations follows (\$ millions):
 2014 = \$6,842 2013 = \$5,475 2012 = \$4,180
3. In 2014, Amazon had net loss of \$(241) million and operating cash flows of \$6,842 million; and, in that same year, total net cash increased by only \$5,899 million (see its statement of cash flows).

The reason its cash balance only increased by \$5,899 million in 2014 was because of cash outflows of \$5,065 million for its investing activities (and further reduced by \$310 million related to foreign currency effects). Those uses of cash absorbed much of the cash generated by its operating activities. A large part of those cash outflows was tied to its investments in securities and its other purchases and acquisitions.

Teamwork in Action — BTN 2-6

<Instructor note: There is no specific solution to this activity.>

The following sample solution gives a summary outline of what a minimum report needs to include. Assume a team member selects assets:

Category: Assets

- a. Increases (decreases) in assets are debits (credits) to asset accounts. Debit means left side, credit means right side. The normal side of an account refers to the side where increases are recorded. For assets, this is the debit, or left, side.
- b. Owner investment of \$10,000 cash in business in exchange for stock.
- c. Assets = Liabilities + Common Stock – Dividends + Revenues – Expenses
 + \$10,000 = \$0 + \$10,000 – \$0 + \$0 – \$0
 Owner investments have no effect on the income statement, but they do increase the cash flows from financing by \$10,000 on the statement of cash flows (this increases its net cash flow).
- d. Paid rent expense with \$2,000 cash.
- e. Assets = Liabilities + Common Stock – Dividends + Revenues – Expenses
 - \$2,000 = \$0 + \$0 – \$0 + \$0 – \$2,000
 An expense paid in cash will decrease net income on the income statement and decrease operating cash flows on the statement of cash flows.

Entrepreneurial Decision — BTN 2-7

There are several issues that this entrepreneurial owner should consider. Those considerations include the following three issues (among others):

- If he chooses to contribute personal funds for the expansion, he will be risking personal money, but he will not have the expense of interest payments, nor will he have the risk of the inability to repay a loan.
- If he chooses to borrow, he will have interest and loan payments to make, and he will have more risk (as reflected in the company's debt ratio).
- If he can pay the interest and loan payments, it can be an advantage to borrow, as long as the return on assets is high enough (that is, higher than the rate of interest on the borrowings).

Entrepreneurial Decision — BTN 2-8

1.

MARTIN MUSIC SERVICES Balance Sheet December 31, 2016			
<i>Assets</i>		<i>Liabilities</i>	
Cash.....	\$ 3,600	Accounts payable.....	\$ 2,200
Accounts receivable	9,600	Unearned lesson fees	<u>15,600</u>
Prepaid insurance	1,500	Total liabilities	17,800
Prepaid rent	9,400		
Store supplies.....	6,600	<i>Equity</i>	
Equipment	<u>50,000</u>	Total equity	<u>62,900</u>
Total assets.....	<u>\$80,700</u>	Total liabilities and equity	<u>\$80,700</u>

2.

Debt ratio = Total liabilities / Total assets = \$17,800 / \$80,700 = 22.1%

Return on assets = Net income/Average assets = \$40,000/\$80,700* = 49.6%

*Ending balance is used per instructions.

3. The prospects of a bank loan are likely to be good. (i) The debt ratio indicates that 78% of the company's funding is from equity. Also, there are no debt obligations requiring periodic payments. This implies low risk. (ii) The level of return on assets is very high. This implies good return.

Overall, given the information and the assumption that current performance will continue into the future, the prospects of a bank loan are good.

Note: The loan does carry some risk—fueling this risk are (i) poor recordkeeping, (ii) lack of information on growth potential, and (iii) a much higher pro forma debt ratio—that is, if the loan is granted, the debt ratio will jump to 43%, computed as:

$$(\$17,800 + \$30,000) / (\$80,700 + \$30,000).$$

Hitting the Road — BTN 2-9

Findings will vary. It is advisable that the instructor obtain a few classified sections from newspapers that were published over the period of the assignment. If student reports lack responses for question 2, it is informative and motivating to bring these (accounting-related job opportunities) sections to class when discussing or returning student reports as many students are not accounting majors.

Global Decision — BTN 2-10

1. An analysis of return on assets suggests that Apple (18.0%) yields the greatest return on assets, followed by Google (11.9%) and then Samsung (10.5%), which yields the lowest return.
2. An analysis of the debt ratio suggests that Apple (at 51.9%) presents the greatest risk, followed by Samsung (27.1%) and then Google (20.3%) with the least risk. That is, Apple carries the most debt and debt must be repaid with interest and principal. The lower debt levels of Google and Samsung result in less risk in that their contractually required payments are less as a percent of their respective asset bases.
3. In this case, there is no clear answer based on these two ratios alone. Apple has a relatively higher return on assets but also the highest debt ratio. Google has the middle-level return (slightly higher return on assets compared to Samsung and substantially lower than that for Apple), but it has the lowest debt ratio. Samsung has the lowest return and the middle-level debt ratio. Overall, based on return on assets, Apple would warrant additional consideration for expanded investment; however, based on the debt ratio, Google would warrant additional consideration. Therefore, in this analysis of these three companies, we get a mixed inference from these two ratios (and further analysis is warranted, which we will illustrate over the next several chapters).

C4. Define <i>debits</i> and <i>credits</i> and explain double-entry accounting.	7	2-4, 2-5, 2-10	2-4	2-1, 2-2, 2-3, GL 2-4	2-6
Analytical objectives:					
A1. Analyze the impact of transactions on accounts and financial statements.		2-7	2-5, 2-6, 2-9, 2-11, 2-12, 2-13, 2-15, 2-20, 2-21	2-1, 2-2, 2-3, 2-4, 2-5, 2-6, SP 2, GL 2-1, GL 2-2, GL 2-3, GL 2-4	2-1, 2-2, 2-4, 2-5, 2-6, 2-7, 2-8
A2. Compute the debt ratio and describe its use in analyzing financial condition.		2-11	2-23	2-5	2-1, 2-2, 2-7, 2-8, 2-10
Procedural objectives:					
P1. Record transactions in a journal and post entries to a ledger.	3, 4, 5	2-6	2-7, 2-11, 2-12, 2-14 2-19	2-1, 2-2, 2-3, 2-4, SP 2, GL 2-1, GL 2-3, GL 2-4	
P2. Prepare and explain the use of a trial balance.	8	2-8	2-8, 2-10, 2-20, 2-21	2-1, 2-2, 2-3, 2-4, 2-6, SP 2, GL 2-1, GL 2-4	
P3. Prepare financial statements from business transactions.	10, 11, 12, 13, 15, 16, 17, 18	2-9	2-16, 2-17, 2-18, 2-19, 2-22	2-5, GL 2-1	2-4, 2-7, 2-8

**See additional information on next page that pertains to these quick studies, exercises and problems.*

*** SP refers to the Serial Problem*

****GL refers to the General Ledger problems*

Additional Information on Related Assignment Material

Connect

Available on the instructor's course-specific website) repeats all numerical Quick Studies, all Exercises and Problems Set A. **Connect** also provides algorithmic versions for Quick Study, Exercises and Problems. It allows instructors to monitor, promote, and assess student learning. It can be used in practice, homework, or exam mode.

Connect Insight

The first and only analytics tool of its kind, Connect Insight is a series of visual data displays that are each framed by an intuitive question and provide at-a-glance information regarding how an instructor's class is performing. Connect Insight is available through Connect titles.

The Serial Problem for *Success Systems* continues in this chapter.

General Ledger

Assignable within Connect, General Ledger (GL) problems offer students the ability to see how transactions post from the general journal all the way through the financial statements. Critical thinking and analysis components are added to each GL problem to ensure understanding of the entire process. GL problems are auto-graded and provide instant feedback to the student.

Excel Simulations

Assignable within Connect, Excel Simulations allow students to practice their Excel skills—such as basic formulas and formatting—within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled). Excel Simulations are auto-graded and provide instant feedback to the student.

Synopsis of Chapter Revisions

- NEW opener—Twitter
- Simplified discussion on analyzing and recording process.
- Streamlined discussion of classified vs unclassified balance sheet.
- Updated the **SPANX** insight box.
- Enhanced Exhibit 2.3 on expanded accounting equation.
- Changed selected numbers for FastForward transactions.
- Enhanced Exhibit 2.15 on financial links across time.
- New layout for Exhibit 2.16 showing financial statements drawn from trial balance.
- Updated **Piaggio's** (IFRS) balance sheet.
- Updated 'Data Quality' box with new fraud information from KPMG.
- New sustainability section for Twitter's environmental efforts.
- Updated **Skechers's** ratio analyses.

Chapter Outline

Notes

I. Using Financial Statements

- A. Analyzing Financial Statements. Used by internal and external users. Evaluate company performance and financial condition.
- B. Assessing Company Results. Use standards including intracompany (across two or more periods), intercompany (competitors), industry and guidelines or rules of thumb.
- C. Using Ratios to Analyze Financial Statements. Widely used tools which express a mathematical relation between two quantities.
- D. Building Blocks of Analysis include:
 - 1. Liquidity and efficiency – availability of resources to meet short-term cash requirements. Includes current ratio.
 - 2. Solvency – company's long-run financial viability and its ability to over long-term obligations. Includes debt ratio.
 - 3. Profitability – company's ability to use its assets to produce profits. Includes profit margin.
 - 4. Market prospects – useful for analyzing companies with publicly traded stock. Includes price-to-earnings ratio.

II. Basis of Financial Statements

- A. Identify transaction from source document which identifies and describes transactions and events entering the accounting process.
- B. Analyze transaction using the accounting equation.
- C. Record relevant transactions and events in a journal.
- D. Post journal information to ledger accounts.
- E. Prepare and analyze trial balance and financial statements.
- F. An *account* is a record of increases and decreases in a specific asset, liability, equity, revenue, or expense item.
- G. Accounts are arranged into three basic categories based on the accounting equation. Categories are:
 - 1. *Assets*—resources owned or controlled by a company that have future economic benefit. Examples include Cash, Accounts Receivable, Note Receivable, Prepaid Expenses, Prepaid Insurance, Supplies, Store Supplies, Equipment, Buildings, and Land.
 - 2. *Liabilities*—claims (by creditors) against assets, which means they are obligations to transfer assets or provide products or services to others. Examples include Accounts Payable, Note Payable, Unearned Revenues, and Accrued Liabilities.
 - a. Accounts Payable—verbal or implied promise to pay later usually arising from purchase of inventory or other assets.
 - b. Notes Payable—formal promise to pay usually denoted by signing a promissory note, to pay a future amount.
 - c. Unearned revenue—revenue collected before it is earned; before services or goods are provided.
 - d. Accrued liabilities—amounts owed that are not yet paid.

Chapter Outline

Notes

3. *Equity*—owner's claim on company's assets is called *equity* or *owner's equity*. Examples include Owner's Capital, Owner's Withdrawals (decreases in equity). Revenues (results from providing goods or services; i.e. Sales, Fees Earned) increases equity. Expenses (results from assets or services used in operation; i.e. Supplies Expense) decreases equity.

III. Analyzing and Processing Transactions

- A. The *general ledger* or *ledger* (referred to as the *books*) is a record containing all the accounts a company uses.
- B. The *chart of accounts* is a list of all accounts in the ledger with their identification numbers.
- C. A *T-account* represents a ledger account and is a tool used to understand the effects of one or more transactions. Has shape like the letter T with account title on top.

IV. Debits and Credits

- A. The *left* side of an account is called the *debit* side. A debit is an entry on the left side of an account.
- B. The *right* side of an account is called the *credit* side. A credit is an entry on the right side of an account.
- C. Accounts are *assigned balance sides* based on their classification or type.
- D. To *increase* an account, an amount is placed on the *balance side*, and to *decrease* an account, the amount is placed on the *side opposite its assigned balance side*.
- E. The *account balance* is the difference between the total debits and the total credits recorded in that account. When total debits exceed total credits the account has a debit balance. When total credits exceed total debits the account has a credit balance. When two sides are equal the account has a zero balance.

V. Double-Entry Accounting—requires that each transaction affect, and be recorded in, at least two accounts. The total debits must equal total credits for each transaction.

- A. The assignment of balance sides (debit or credit) follows the accounting equation.
 1. *Assets* are on the *left side* of the equation; therefore, the left, or *debit*, side is the normal balance for assets.
 2. *Liabilities and equities* are on the *right side*; therefore, the right, or credit, side is the normal balance for liabilities and equity.
 3. *Withdrawals, revenues, and expenses* really are changes in equity, but it is necessary to set up temporary accounts for each of these items to accumulate data for statements. Withdrawals and expense accounts really represent decreases in equity; therefore, they are assigned debit balances. *Revenue* accounts really represent increases in equity; therefore, they are assigned credit balances.

Chapter Outline

Notes

- B. Three important rules for recording transactions in a double-entry accounting system are:
 1. Increases to assets are debits to the asset accounts. Decreases to assets are credits to the asset accounts.
 2. Increases to liabilities are credits to the liability accounts. Decreases to liabilities are debits to the liability accounts.
 3. Increases to equity are credits to the equity accounts. Decreases to equity are debits to the equity accounts.

VI. Journalizing and Posting Transactions

- A. Four steps in processing transactions are as follows:

Journalizing--The process of recording each transaction in a journal.

1. Identify transaction and source documents.
2. Analyze using the accounting equation. Apply double entry accounting to determine account to be debited and credited.
3. Record journal entry—recorded chronologically (A journal gives us a complete record of each transaction in one place.)
 - a. A *General Journal* is the most flexible type of journal because it can be used to record any type of transaction.
 - b. When a transaction is recorded in the General Journal, it is called a *journal entry*. A journal entry that affects more than two accounts is called a compound journal entry.
 - c. Each journal entry must contain equal debits and credits.
4. Posting Journal entries—transfer (or *post*) each entry from journal to ledger.
 - a. Debits are posted as debit, and credits as credits to the accounts identified in the journal entry.
 - b. Actual accounting systems use *balance column accounts* rather than T-accounts in the ledger.
 - c. A *balance column account* has debit and credit columns for recording entries and a third column for showing the balance of the account after each entry is posted.

Note: To see an illustration of analyzing, journalizing and posting of 16 basic transactions refer to pages 64-70 of the textbook.

VII. Trial Balance

- A. A *trial balance* is a list of accounts and their balances at a point in time. Account balances are reported in their appropriate debit or credit columns of the trial balance.
- B. The trial balance tests for the equality of the debit and credit account balances as required by double-entry accounting.
- C. Three steps to prepare a trial balance are as follows:
 1. List each account and its amount (from the ledger).
 2. Compute the total debit balances and the total credit balances.
 3. Verify (prove) total debit balances equal total credit balances.

Chapter Outline

Notes

D. When a trial balance does not balance (the columns are not equal), an error has occurred in one of the following steps:

1. Preparing the journal entries.
2. Posting the journal entries to the ledger.
3. Calculating account balances.
4. Copying account balances to the trial balance.
5. Totaling the trial balance columns.

(**Note:** Any errors must be located and corrected before preparing the financial statements. Financial Statements prepared from the trial balance are actually *unadjusted* statements. The purpose, content and format for each statement was presented in Chapter 1. The next chapter will address adjustments)

E. Searching for and Correcting Errors

1. Approach to correcting errors depends on the kind of error and when it is discovered.
2. Correcting entries may be necessary.

F. Using a Trial Balance to Prepare Financial Statements

1. Income statement reports revenues earned less expenses incurred over a period of time.
2. Statement of retained earnings conveys how retained earnings change over the reporting period. Net income (or net loss) is added (subtracted) from the beginning balance of retained earnings and dividends are subtracted.
3. Balance sheet shows the financial position at a point in time and includes assets, liabilities and ending retained earnings balance.

G. Presentations Issues

1. Dollar signs are not used in journals and ledgers but are used in financial statements and trial balance.
2. Usual practice on statements is to put dollar signs before the first and last number in each column.
3. Commas are optional except for financial reports where they are always used.
4. Companies commonly round to the nearest dollar, or even higher levels.
5. Double rule the final total(s) on the financial statements.

VIII. Global View—Compares U.S.GAAP to IFRS

- A. Analyzing and recording transactions—all transactions in this chapter are accounted for identically under both systems.
- B. Financial Statements—both systems require the same 4 basic statement but there are some differences in the presentation sequence with a given statement.
- C. Accounting controls and assurance—SOX strengthened U.S. control procedures that insure proper principle application; global standards for control and enforcement are diverse. This can yield different outcomes.

Chapter Outline

Notes

IX. Decision Analysis—Debt Ratio:

- A. Companies finance their assets with either liabilities or equity.
- B. A company that finances a relatively large portion of its assets with liabilities has a high degree of financial leverage.(greater risk)
- C. The debt ratio describes the relationship between a company's liabilities and assets. It is calculated as total liabilities divided by total assets.
- D. The debt ratio tells us how much (what percentage) of the assets are financed by creditors (non-owners), or liability financing. The higher this ratio, the more risk a company faces, because liabilities must be repaid and often require regular interest payments.

VISUAL #2-1

THREE PARTS OF AN ACCOUNT

(1) ACCOUNT TITLE	
Left Side called (2) DEBIT	Right Side called (3) CREDIT

Rules for using accounts

Accounts are assigned balance sides (Debit or Credit).

To increase any account, use the balance side.

To decrease any account, use the side opposite the balance.

Finding account balances

If total debits = total credits, the account balance is zero.

If total debits are greater than total credits, the account has a debit balance equal to the difference of the two totals.

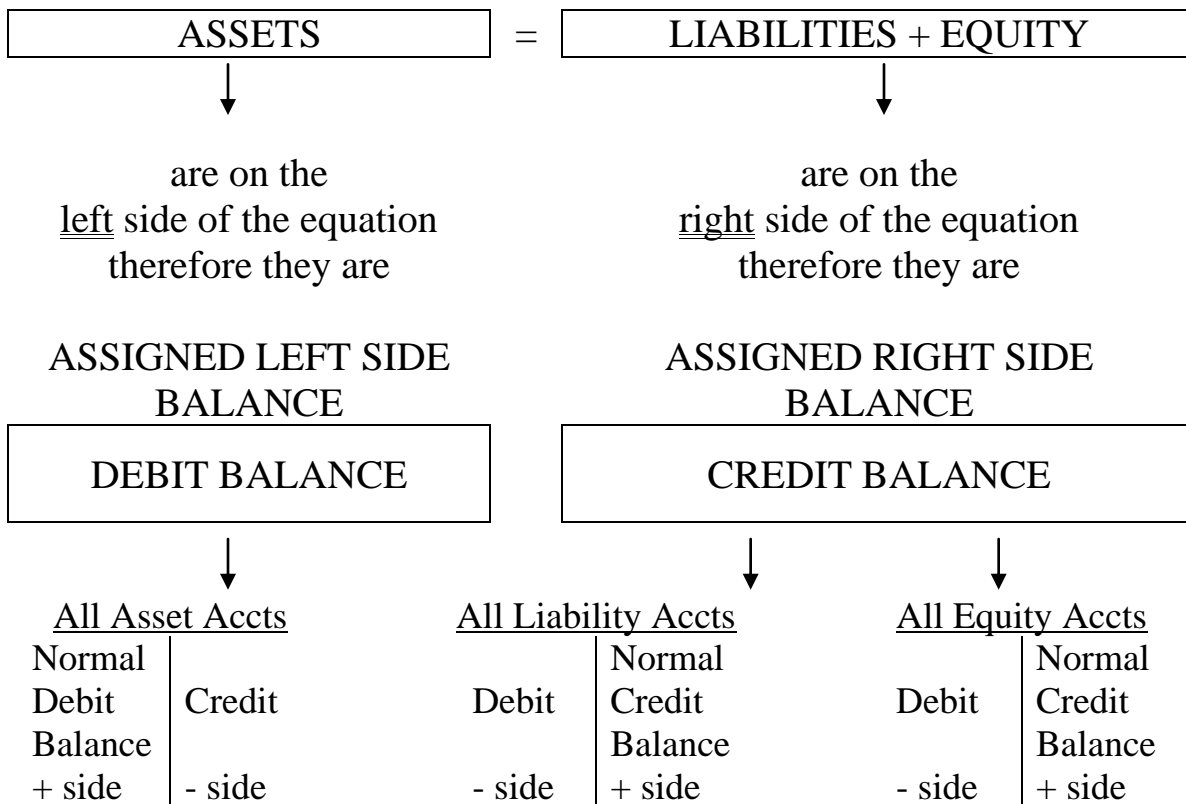

If total credits are greater than total debits, the account has a credit balance equal to the difference of the two totals.

VISUAL #2-2

REAL ACCOUNTS

ALL ACCOUNTS ARE ASSIGNED BALANCE SIDES

BALANCE SIDES FOR ASSETS, LIABILITIES, AND
EQUITY ACCOUNTS ARE ASSIGNED BASED ON
SIDE OF EQUATION THEY ARE ON.

*In a sole proprietorship, there is only one equity account, which is called capital. For that reason, the terms equity and capital are often used interchangeably. (When corporations are discussed in detail, you will learn many stockholders' equity accounts.) Equity is an account classification like assets. Owner's Name, Capital, is the account title.

VISUAL #2-3

TEMPORARY ACCOUNTS

Temporary accounts are established to facilitate efficient accumulation of data for statements. Temporary accounts are established for withdrawals, each revenue, and each expense. *Temporary accounts are assigned balances based on how they affect equity.*

(Equity Account)

Owner's Name, Capital	
Debit - side	Credit <u>Balance</u> + side

Temporary Accounts
Owner, Withdrawals*
Revenues
Expenses

Effect on equity? ↑E or ↓E
↓ E = Dr
↑ E = Cr
↓ E = Dr

All Withdrawal Accts

Normal Debit Balance + side	Credit - side
--------------------------------------	------------------

All Revenue Accts

Normal Debit Balance + side	Credit - side
--------------------------------------	------------------

All Expense Accts

Normal Debit Balance + side	Credit - side
--------------------------------------	------------------

Note:

Transactions during the period always increase the balances of these temporary accounts since the transaction represent additional withdrawals, revenues, and expenses. We will later learn how to move these amounts back to the real account they affect → CAPITAL. At the end of the accounting period, transferring withdrawals, revenues, and expenses back to capital is the main use for the decrease side of the temporary accounts.

*The “Owner’s Name, Withdrawals” is the account title and the classification of account is a contra-equity.

VISUAL #2-4

USING ACCOUNTS - SUMMARY

RULE REVIEW

Transaction analysis rules

- Each transaction affects at least 2 accounts.
- Each transaction must have equal debits and credits.

General account use rules

- To increase any account, use balance side.
- To decrease any account, use side opposite the balance

Temporary Accounts

All Withdrawal
Accounts

Debit + Balance	—
--------------------	---

All Revenue Accounts

—	Credit + Balance
---	---------------------

All Expense Accounts

Debit + Balance	—
--------------------	---

Alternate Demonstration Problem
Chapter Two

Record the following transactions of Speedy Computer Service for the month of March 2017.

March 1. Speedy Computer Service received \$3,000 cash from Bill Smith in exchange for common stock.

- 15. Provided services and received cash amounting to \$5,400 from customers.**
- 16. Purchased supplies on account, \$100.**
- 17. Paid for gas and oil, \$800.**
- 18. Paid salaries, 5,000.**
- 21. Provided service on credit, \$600.**
- 28. Provided services and received cash amounting to \$6,000.**
- 29. Paid for truck and equipment rental, \$2,500.**
- 30. Paid \$2,000 cash dividends.**

Required:

- 1. Record the above transactions in general journal form.**
- 2. Prepare a trial balance after posting the entries to t-accounts (you can make your own t-accounts).**
- 3. Prepare an income statement from trial balance.**
- 4. Prepare a statement of retained earnings from the trial balance and income statement.**
- 5. Prepare a balance sheet using the trial balance totals and the statement of retained earnings.**

Explain why the company's cash balance does not agree with net income.

Solution: Alternate Demonstration Problem

Chapter Two
GENERAL JOURNAL

DATE	ACCOUNT TITLES AND EXPLANATION	P.R.	DEBIT	CREDIT
March 1	Cash		3 0 0 0 00	
	Common Stock			3 0 0 0 00
15	Cash		5 4 0 0 00	
	Service Fees Earned			5 4 0 0 00
16	Supplies		1 0 0 0 00	
	Accounts Payable			1 0 0 0 00
17	Gas and Oil Expense		8 0 0 0 00	
	Cash			8 0 0 0 00
18	Salaries Expense		5 0 0 0 00	
	Cash			5 0 0 0 00
21	Accounts Receivable		6 0 0 0 00	
	Service Fees Earned			6 0 0 0 00
28	Cash		6 0 0 0 00	
	Service Fees Earned			6 0 0 0 00
29	Equipment Rental Expense		2 5 0 0 00	
	Cash			2 5 0 0 00
30	Dividends		2 0 0 0 00	
	Cash			2 0 0 0 00

Speedy Computer Service

Trial Balance

March 31, 2017

Cash	4	1	0	0	00			
Accounts Receivable		6	0	0	00			
Supplies		1	0	0	00			
Accounts Payable							1	00 00
Common Stock						3	0	00 00
Dividends	2	0	0	0	00			
Service Fees Earned						1	2	00 00 00
Gas & Oil Expense		8	0	0	00			
Equipment Rental Expense	2	5	0	0	00			
Salaries Expense	5	0	0	0	00			
Totals	1	5	1	0	00	1	5	1 00 00

**3. Speedy Computer Service
Income Statement
For the month ended March 31, 2017**

Fees Earned	\$12,000
Expenses:	
Equipment Rental Expense	\$2,500
Gas & Oil Expense	800
Salary Expense	<u>5,000</u>
Total expenses	<u>8,300</u>
Net income	<u>\$ 3,700</u>

4. **Speedy Computer Service**
Statement of Retained Earnings
For the month ended March 31, 2017

Retained Earnings, Mar 1, 2017		\$0
Plus: Net Income	<u>3,700</u>	<u>3,700</u>
		3,700
Less: Dividends		<u>2,000</u>
Retained earnings, Mar 31, 2017		<u>\$1,700</u>

5. **Speedy Computer Service**
Balance Sheet
March 31, 2017

Assets		Liabilities and Owner's Equity	
Cash.....	\$4,100	Accounts payable	\$ 100
Accts Receivable.....	600	Common stock	<u>3,000</u>
Supplies	<u>100</u>	Retained earnings	<u>1,700</u>
		Total liabilities and	
Total Assets	<u>\$4,800</u>	owner's equity	<u>\$4,800</u>

6. First, note that the cash investment (\$2,000) and cash dividends (\$2,000) affect the cash balance but do not affect the amount of net income earned during the period. Also, revenues in the amount of \$600 (March 21) are reflected in the net income figure, but have not yet been collected. As such, these revenues did not impact the cash balance.

Financial Statements and the Accounting System

Chapter 2

John J. Wild

Financial Accounting: Information for Decisions

8th Edition

Chapter 2 Learning Objectives

CONCEPTUAL

- C1** Explain the steps in processing transactions and the role of source documents.
- C2** Describe an account and its use in recording transactions.
- C3** Describe a ledger and a chart of accounts.
- C4** Define *debits* and *credits* and explain double-entry accounting.

ANALYTICAL

- A1** Analyze the impact of transactions on accounts and financial statements.
- A2** Compute the debt ratio and describe its use in analyzing financial condition.

PROCEDURAL

- P1** Record transactions in a journal and post entries to a ledger.
- P2** Prepare and explain the use of a trial balance.
- P3** Prepare financial statements from business transactions.

Learning Objective

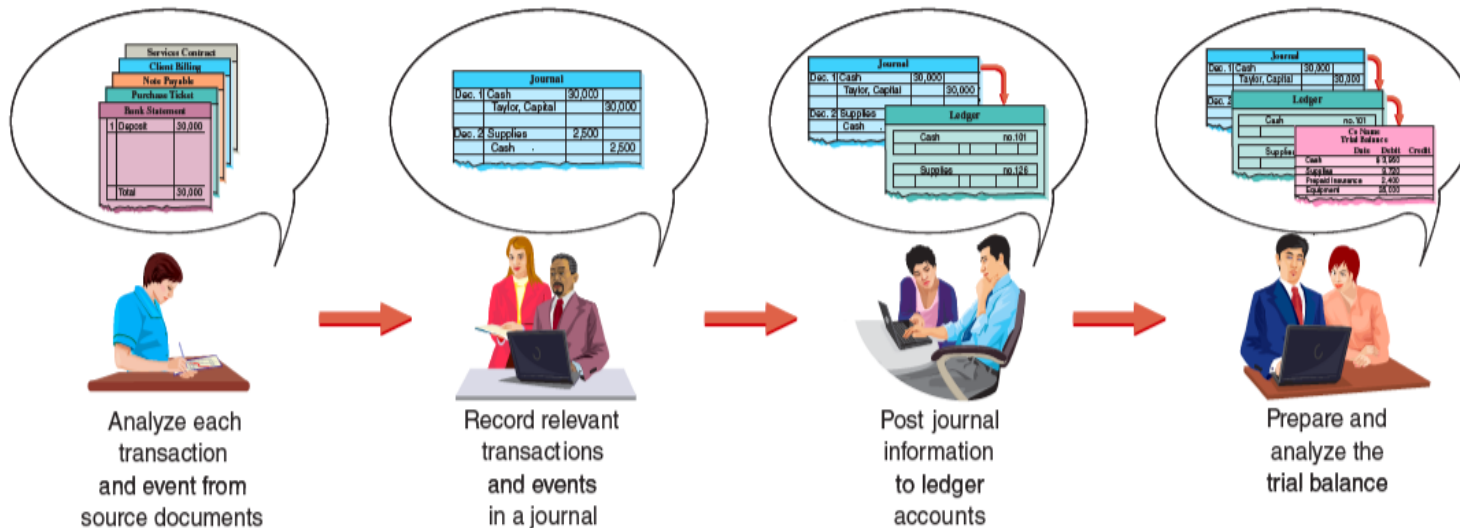

02-C1:

Explain the steps in processing transactions and the role of source documents.

Basis of Financial Statements

The accounting process:

- Identifies business transactions and events
- Analyzes transactions using the accounting equation
- Records transactions and events in a journal
- Posts journal information to ledger accounts
- Prepares and analyzes the trial balance and financial statements

Source Documents

- Identify and describe transactions and events in the accounting process
- May be in hard copy or electronic form
- Examples include:

Learning Objective

02-C2:

Describe an account and its use in recording transactions.

The Account and Its Analysis

An **account** is a record of increases and decreases in a specific asset, liability, equity, revenue, or expense item.

The **general ledger** is a record containing all accounts used by the company.

The Account and Its Analysis

Exhibit
2.1

Asset Accounts

Liability Accounts

**Accounts
Payable**

**Notes
Payable**

**Liability
Accounts**

**Accrued
Liabilities**

**Unearned
Revenue**

Equity Accounts

The Account and Its Analysis

Exhibit
2.2

Revenues and Common Stock increase equity.
Expenses and Dividends decrease equity.

NEED-TO-KNOW 2-1

Classify each of the following as assets (A), liabilities (L), or equity (EQ).

- | | |
|-------------------------------|---------------------|
| 1) <u> (A) Asset </u> | Prepaid Rent |
| 2) <u> (EQ) Equity </u> | Common Stock |
| 3) <u> (A) Asset </u> | Note Receivable |
| 4) <u> (L) Liability </u> | Accounts Payable |
| 5) <u> (A) Asset </u> | Accounts Receivable |
| 6) <u> (A) Asset </u> | Equipment |
| 7) <u> (L) Liability </u> | Interest Payable |
| 8) <u> (L) Liability </u> | Unearned Revenue |
| 9) <u> (A) Asset </u> | Land |
| 10) <u> (A) Asset </u> | Prepaid Insurance |
| 11) <u> (L) Liability </u> | Wages Payable |
| 12) <u> (L) Liability </u> | Taxes Payable |

Assets – Things of value owned by the company.

Liabilities – Amounts owed to creditors.

Equity – The residual interest (Assets – Liabilities)

Key words to look for in account titles:

Prepaid	Always an asset
Receivable	Always an asset
Payable	Always a liability
Unearned	Always a liability

Learning Objective

02-C3:

Describe a ledger and chart of accounts

Ledger and Chart of Accounts

A ledger is a collection of all accounts for a company. Company's size and diversity of operations affect the number of accounts needed.

The chart of accounts is a list of all accounts and includes an identifying number for each account.

Chart of Accounts					
Acct. No.	Account Name	Acct. No.	Account Name	Acct. No.	Account Name
101	Cash	236	Unearned consulting revenue	406	Rental revenue
106	Accounts receivable	307	Common stock	622	Salaries expense
126	Supplies	318	Retained earnings	637	Insurance expense
128	Prepaid insurance	319	Dividends	640	Rent expense
167	Equipment	403	Consulting revenue	652	Supplies expense
201	Accounts payable			690	Utilities expense

**Exhibit
2.4**

Learning Objective

**02-C4:
Define debits and credits and
explain double-entry
accounting.**

Debits and Credits

A T-account represents a ledger account and is a tool used to understand the effects of one or more transactions.

Account Title	
(Left side) <i>Debit</i>	(Right side) <i>Credit</i>

Exhibit
2.5

Double-Entry Accounting

$$\boxed{\text{Assets}} = \boxed{\text{Liabilities}} + \boxed{\text{Equity}}$$

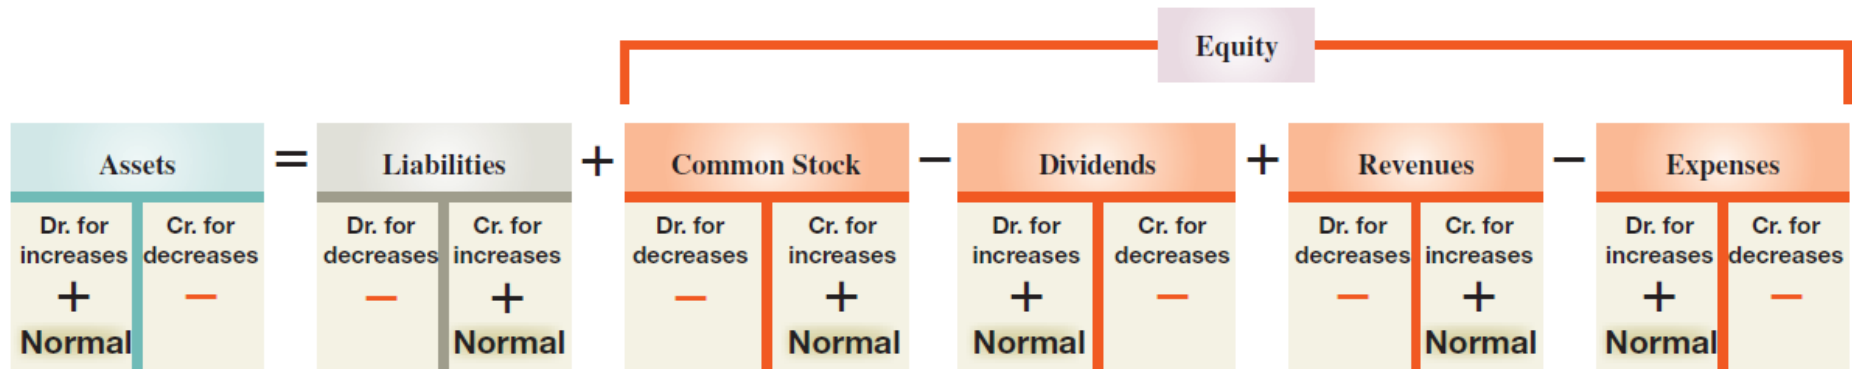

Exhibit
2.6

Assets		=	Liabilities		+	Equity	
Debit for increases	Credit for decreases		Debit for decreases	Credit for increases		Debit for decreases	Credit for increases
+	—		—	+		—	+
Normal				Normal			Normal

Double-Entry Accounting

Here is the expanded accounting equation showing the equity section.

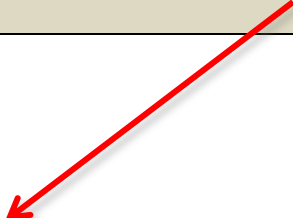

Exhibit
2.7

Computing Balance in T-Account

An account balance is the difference between the increases and decreases in an account. Notice the Cash T-Account.

Exhibit
2.8

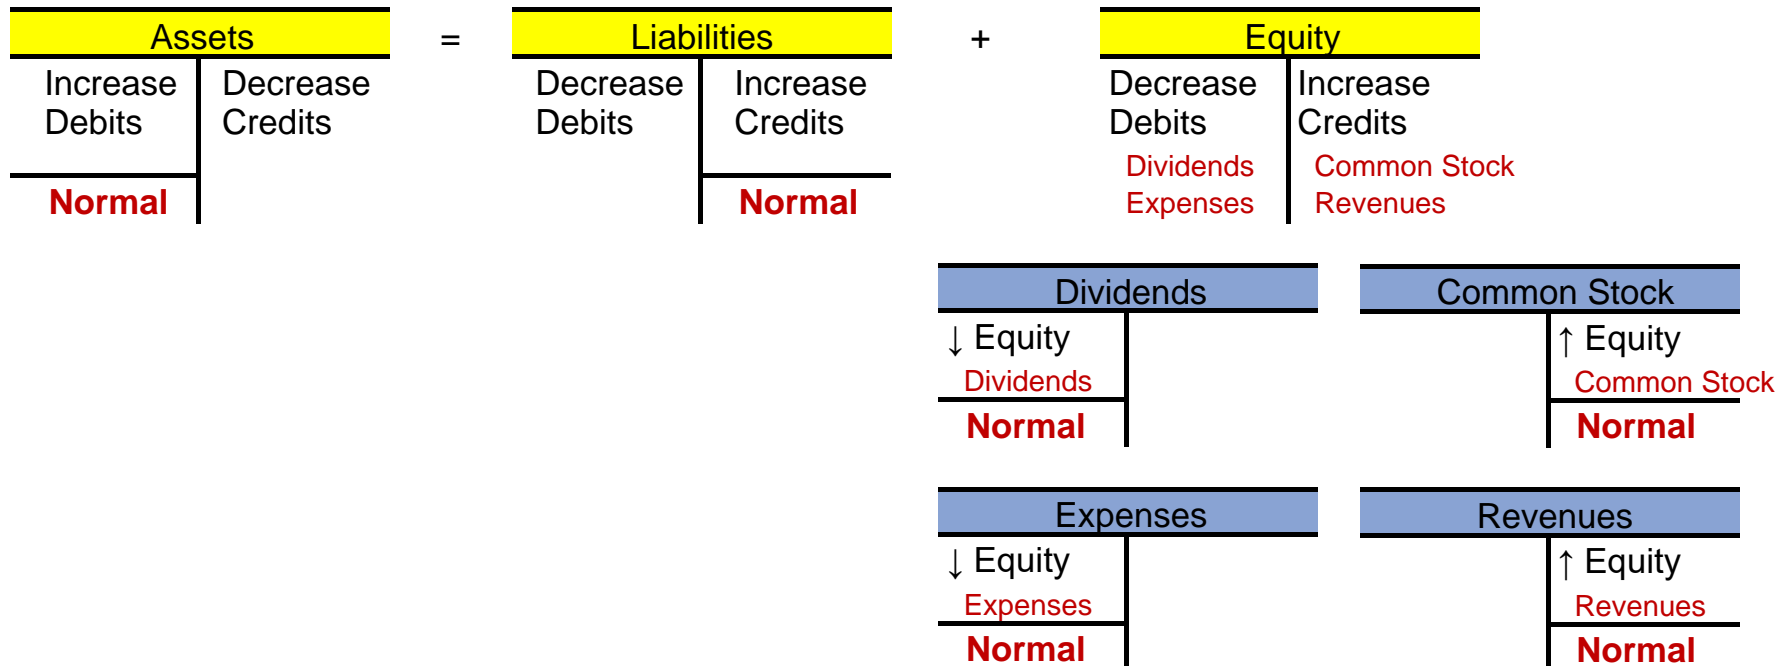

Cash			
Receive investment by owner for stock	30,000	Purchase of supplies	2,500
Consulting services revenue earned	4,200	Purchase of equipment	26,000
Collection of account receivable	1,900	Payment of rent	1,000
		Payment of salary	700
		Payment of account payable	900
		Payment of cash dividend	200
Balance	4,800		

NEED-TO-KNOW 2-2

Identify the normal balance (debit [Dr] or credit [Cr]) for each of the following accounts.

- | | |
|----------------------|---------------------|
| 1) <u>Dr. Debit</u> | Prepaid Rent |
| 2) <u>Cr. Credit</u> | Common Stock |
| 3) <u>Dr. Debit</u> | Note Receivable |
| 4) <u>Cr. Credit</u> | Accounts Payable |
| 5) <u>Dr. Debit</u> | Accounts Receivable |
| 6) <u>Dr. Debit</u> | Equipment |
| 7) <u>Cr. Credit</u> | Interest Payable |
| 8) <u>Cr. Credit</u> | Unearned Revenue |
| 9) <u>Dr. Debit</u> | Land |
| 10) <u>Dr. Debit</u> | Prepaid Insurance |
| 11) <u>Dr. Debit</u> | Dividends |

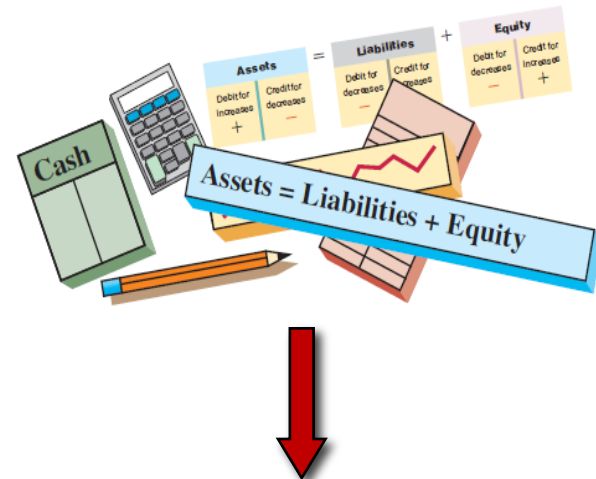

Learning Objective

02-P1:

**Record transactions in a
journal and post entries to a
ledger.**

Exhibit 2.9

Step 2: Analyze transactions using the accounting equation.

Step 3: Record journal entry.

Journalizing Transactions

Exhibit

	Common Stock	307		30,000
	Receive investment by owner.			

General Ledger

Cash Account no. 101

Date	Explanation	PR	Debit	Credit	Balance
2016 Dec. 1		G1	30,000		30,000

Common Stock Account no. 307

Date	Explanation	PR	Debit	Credit	Balance
2016 Dec. 1		G1		30,000	30,000

Diagram annotations: Red arrows show the flow of data. Arrow 1 points from the 'General Journal Entry' window to the 'General Ledger' window. Arrow 2 points from the 'Cash' entry in the journal to the 'Cash' ledger account. Arrow 3 points from the 'Common Stock' entry in the journal to the 'Common Stock' ledger account. Arrow 4 points from the 'Credit' column of the 'Common Stock' journal entry to the 'Credit' column of the 'Common Stock' ledger account.

Learning Objective

02-A1:

**Analyze the impact of
transactions on accounts and
financial statements**

Analyzing Transactions

Double-entry accounting is useful in analyzing and processing transactions. Analysis of each transaction follows these four steps.

- Step 1** Identify the transaction and any source documents.
- Step 2** Analyze the transaction using the accounting equation.
- Step 3** Record the transaction in journal entry form applying double-entry accounting.
- Step 4** Post the entry (for simplicity, we use T-accounts to represent ledger accounts).

Analyzing Transactions

1. Receive Investment by Owner

1 IDENTIFY FastForward receives \$30,000 cash from Chas Taylor in exchange for common stock.

2 ANALYZE

Assets	=	Liabilities	+	Equity
Cash				Common Stock
+30,000	=	0		+30,000

3 RECORD

Date	Account Titles and Explanation	PR	Debit	Credit
(1)	Cash	101	30,000	
	Common Stock	307		30,000

4 POST

Cash		101
(1)	30,000	

Common Stock		307
	(1)	30,000

Analyzing Transactions

2. Purchase Supplies for Cash

1 IDENTIFY FastForward pays \$2,500 cash for supplies.

2 ANALYZE

Assets		=	Liabilities	+	Equity
Cash	Supplies				
-2,500	+2,500	=	0	+	0

Changes the composition of assets but not the total.

3 RECORD

Date	Account Titles and Explanation	PR	Debit	Credit
(2)	Supplies	126	2,500	
	Cash	101		2,500

4 POST

Exhibit 2.13

Learning Objective 02-A1: Analyze the impact of transactions on accounts and financial statements.

NEED-TO-KNOW 2-3

Assume Tata began operations on January 1 and completed the following transactions during its first month of operations.

- Jan. 1 Jamsetji invested \$4,000 cash in the Tata company in exchange for its common stock.
- Jan. 5 The company purchased \$2,000 of equipment on credit.
- Jan. 14 The company provided \$540 of services for a client on credit.

For each transaction, (a) analyze the transaction using the accounting equation, (b) record the transaction in journal entry form, and c) post the entry using T-accounts to represent the general ledger accounts.

NEED-TO-KNOW 2-3

Jan. 1 Jamsetji invested \$4,000 cash in the Tata company in exchange for common stock.

a) Analyze

Assets = Liabilities + Equity	
+ \$4,000	+ \$4,000

b) Record

Date	General Journal	Debit	Credit
Jan. 1	Cash	4,000	
	Common Stock		4,000

c) Post

Cash	
Jan. 1	4,000

Common Stock	
	Jan. 1 4,000

Assets		=	Liabilities		+	Equity	
Increase Debits	Decrease Credits		Decrease Debits	Increase Credits		Decrease Debits	Increase Credits
Normal				Normal		Dividends Expenses	Common stock Revenues

NEED-TO-KNOW 2-3 SOLUTION

Jan. 5 The company purchased \$2,000 of equipment on credit.

a) Analyze

Assets = Liabilities + Equity

+ \$2,000 + \$2,000

b) Record

Date	General Journal	Debit	Credit
Jan. 5	Equipment	2,000	
	Accounts Payable		2,000

c) Post

Equipment	
Jan. 5	2,000

Accounts Payable	
	Jan. 5 2,000

Assets		=	Liabilities		+	Equity	
Increase Debits	Decrease Credits		Decrease Debits	Increase Credits		Decrease Debits	Increase Credits
Normal				Normal		Dividends Expenses	Common Stock Revenues

NEED-TO-KNOW 2-3 SOLUTION

Jan. 14 The company provided \$540 of services for a client on credit.

a) Analyze

Assets = Liabilities + Equity	
+ \$540	+ \$540

b) Record

Date	General Journal	Debit	Credit
Jan. 14	Accounts receivable	540	
	Services revenue		540

c) Post

Accounts receivable		
Jan. 14	540	
Services revenue		
		Jan. 14 540

Assets		=	Liabilities		+	Equity	
Increase Debits	Decrease Credits		Decrease Debits	Increase Credits		Decrease Debits	Increase Credits
Normal				Normal		Dividends Expenses	Common Stock Revenues

Learning Objective

02-P2:

**Prepare and explain the
use of a trial balance**

Preparing the Trial Balance

Preparing a trial balance involves three steps:

1. List each account title and its amount (from ledger) in the trial balance. If an account has a zero balance, list it with a zero in the normal balance column (or omit it).
2. Compute the total of debit balances and the total of credit balances.
3. Verify (prove) total debit balances equal total credit balances.

After processing its remaining transactions for December, FastForward's Trial Balance is prepared.

Exhibit
2.14

FASTFORWARD Trial Balance December 31, 2016			
	Debit		Credit
Cash	\$ 4,275		
Accounts receivable	0		
Supplies	9,720		
Prepaid insurance	2,400		
Equipment	26,000		
Accounts payable		\$ 6,200	
Unearned consulting revenue		3,000	
Common stock		30,000	
Dividends	200		
Consulting revenue		5,800	
Rental revenue		300	
Salaries expense	1,400		
Rent expense	1,000		
Utilities expense	305		
Totals	\$ 45,300	\$ 45,300	

The trial balance lists all account balances in the general ledger. If the books are in balance, the total debits will equal the total credits.

Searching for and Correcting Errors

If the trial balance does not balance, the error(s) must be found and corrected.

① Make sure the trial balance columns are correctly added.

② Make sure account balances are correctly entered from the ledger.

③ See if debit or credit accounts are mistakenly placed on the trial balance.

④ Re-compute each account balance in the ledger.

⑤ Verify that each journal entry is posted correctly.

⑥ Verify that each original journal entry has equal debits and credits.

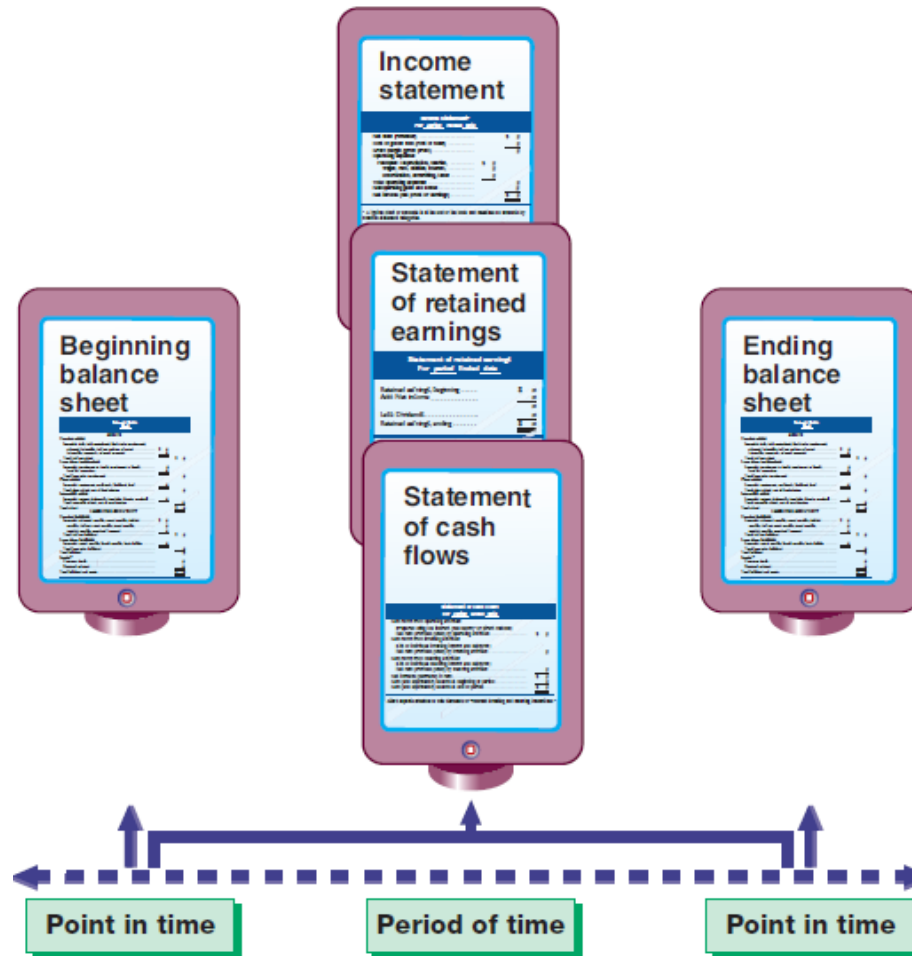

Learning Objective

02-P3:

**Prepare financial statements
from business transactions.**

Using a Trial Balance to Prepare Financial Statements

Exhibit
2.15

Financial Statements

The four financial statements and their purposes are:

- 1. Income statement** — describes a company's revenues and expenses along with the resulting net income or loss over a period of time due to earnings activities.
- 2. Statement of retained earnings**— explains changes in the retained earnings from net income (or loss) and from any dividends declared over a period of time.
- 3. Balance sheet** — describes a company's financial position (types and amounts of assets, liabilities, and equity) at a point in time.
- 4. Statement of cash flows** —identifies cash inflows (receipts) and cash outflows (payments) over a period of time.

Income Statement

FASTFORWARD Income Statement For Month Ended December 31, 2016		
Revenues

		Total equity	<u>33,195</u>
Total assets	<u><u>\$42,395</u></u>	Total liabilities and equity	<u><u>\$42,395</u></u>

Presentation Issues

1. Dollar signs are not used in journals and ledgers.
2. Dollar signs appear in financial statements and other reports such as trial balances. The usual practice is to put dollar signs beside only the first and last numbers in a column.
3. When amounts are entered in the journal, ledger, or trial balance, commas are optional to indicate thousands, millions, and so forth.
4. Commas are always used in financial statements.
5. Companies commonly round amounts in reports to the nearest dollar, or even to a higher level.

NEED-TO-KNOW 2-4

Prepare a trial balance for Apple using the following condensed data from its fiscal year-ended September 27, 2014.

Common stock	\$23,313	Investments and other assets	\$179,911
Accounts payable	30,196	Land and equipment (net)	20,624
Other liabilities	90,096	Selling and other expense	17,054

Global View

Financial Statements

Both U.S. GAAP and IFRS prepare the same four basic financial statements. A few differences are found within each statement, but over time these differences are likely to be eliminated. Here is a typical IFRS balance sheet presentation.

PIAGGIO Balance Sheet (in thousands of Euros) December 31, 2014			
Assets		Equity and Liabilities	
Noncurrent assets	€1,079,117	Total equity	€ 413,069
Current assets	477,491	Noncurrent liabilities	581,366
		Current liabilities	562,173
Total assets	<u>€1,556,608</u>	Total equity and liabilities	<u>€1,556,608</u>

Accounting Controls and Assurance

Accounting systems depend on control procedures that assure the proper principles were applied in processing accounting information. The passage of SOX legislation strengthened U.S. control procedures in recent years.

The graph here shows the percentage of employees in information technology who report observing specific types of misconduct and the increased risk of such misconduct in recent years (Source: KPMG 2013)

Learning Objective

02-A2:

Compute the debt ratio and describe its use in analyzing financial condition.

Debt Ratio

$$\text{Debt Ratio} = \frac{\text{Total Liabilities}}{\text{Total Assets}}$$

Evaluates the level of debt risk.

A higher ratio indicates that there is a greater probability that a company will not be able to pay its debt in the future.

Debt Ratio

Exhibit
2.18

Skechers's debt ratio at each year-end
from 2014 to 2010.

\$ in millions	2014	2013	2012	2011	2010
Total liabilities	\$ 541	\$ 429	\$ 421	\$ 389	\$ 359
Total assets	\$1,675	\$1,409	\$1,340	\$1,282	\$1,305
Debt ratio	0.32	0.30	0.31	0.30	0.28
Industry debt ratio	0.49	0.47	0.46	0.47	0.49

Exercise 2-6 page 83

Use the information in each of the following separate cases.

a.	Payments on accounts in October	\$300,500
b.	Sales on account in October	\$89,390
c.	Cash balance on September 30	\$19,250

- a. Corentine Co. had \$152,000 of accounts payable on September 30 and \$132,500 on October 31. Total purchases on account during October were \$281,000. Determine how much cash was paid on accounts payable during October.
- b. On September 30, Valerian Co. had a \$102,500 balance in Accounts Receivable. During October, the company collected \$102,890 from its credit customers. The October 31 balance in Accounts Receivable was \$89,000. Determine the amount of sales on account that occurred in October.
- c. During October, Alameda Company had \$102,500 of cash receipts and \$103,150 of cash disbursements. The October 31 Cash balance was \$18,600 Determine how much cash the company had at the close of business on September 30.

Use the information in each of the following separate cases.

- a. Payments on accounts in October \$300,500
- b. Sales on account in October
- c. Cash balance on September 30

- a. Corentine Co. had \$152,000 of accounts payable on September 30 and \$132,500 on October 31. Total purchases on account during October were \$281,000. Determine how much cash was paid on accounts payable during October.

Accounts Payable			
		Sept. 30	152,000
Cash paid	300,500	Purch. on a/c	281,000
		Balance	132,500

Use the information in each of the following separate cases.

- | | | |

Exercise 2-9 page 83

Prepare general journal entries to record the transactions below for Spade Company by using the following accounts: Cash; Accounts Receivable; Office Supplies; Office Equipment; Accounts Payable; Common stock; Dividends; Fees Earned; and Rent Expense. Use the letters beside each transaction to identify entries. After recording the transactions, post them to T-accounts, which serves as the general ledger for this assignment. Determine the ending balance of each T-account.

The transactions of Spade Company:

- a. Kacy Spade, owner, invested \$100,750 cash in the company in exchange for common stock
- b. The company purchased office supplies for \$1,250 cash.
- c. The company purchased \$10,050 of office equipment on credit.
- d. The company received \$15,000 cash as fees for services provided to a customer.
- e. The company paid \$10,050 cash to settle the payable for the office equipment purchased in transaction c.
- f. The company billed a customer \$2,700 as fees for services provided.
- g. The company paid \$1,225 cash for the monthly rent.
- h. The company collected \$1,125 cash as partial payment for the account receivable created in transaction f.
- i. The company paid \$10,000 cash to Spade (sole shareholder).

Exercise 2-15 page 85

A corporation had the following assets and liabilities at the beginning and end of this year.

	Assets	Liabilities
Beginning of the year	\$ 60,000	\$ 20,000
End of the year	105,000	36,000

Determine the net income earned or net loss incurred by the business during the year for each of the following separate cases:

- Owner made no investments in the business and no dividends were paid during the year.
- Owner made no investments in the business but dividends were \$1,250 cash per month.
- No dividends were paid during the year, but the owner did invest an additional \$55,000 cash in exchange for common stock.
- Dividends were \$1,250 cash per month for and the owner invested an additional \$35,000 cash in exchange for common stock.

	a.	b.	c.	d.
Beginning of the year equity	\$40,000	\$40,000	\$40,000	\$40,000
Investments by stockholder	0	0	55,000	35,000
Dividends	0	(15,000)	0	(15,000)
Net income (loss)	29,000	44,000	(26,000)	9,000
End of the year equity	<u>\$69,000</u>	<u>\$69,000</u>	<u>\$69,000</u>	<u>\$69,000</u>

A corporation had the following assets and liabilities at the beginning and end of this year.

	Assets	Liabilities
Beginning of the year	\$ 85,000	\$ 35,000
End of the year	130,000	50,000

Determine the net income earned or net loss incurred by the business during the year for each of the following separate cases:

- Owner made no investments in the business and no dividends were paid during the year.
- Owner made no investments in the business but dividends were \$2,000 cash per month.
- No dividends were paid during the year, but the owner did invest an additional \$45,000 cash in exchange for common stock.
- Dividends were \$2,000 cash per month and the owner invested an additional \$35,000 cash in exchange for common stock.

	a.	b.	c.	d.
Beginning of the year equity	\$50,000	\$50,000	\$50,000	\$50,000
Investments by stockholder	0	0	45,000	35,000
Dividends	0	(24,000)	0	(24,000)
Net income (loss)	30,000	54,000	(15,000)	19,000
End of the year equity	<u>\$80,000</u>	<u>\$80,000</u>	<u>\$80,000</u>	<u>\$80,000</u>

Exercise 2-16 page 85

Carmen Camry operates a consulting firm called Help Today, which began operations on August 1. On August 31, the company's records show the following accounts and amounts for the month of August. Use this information to prepare an August income statement for the business.

Dividends are reported on the Statement of Retained Earnings

Cash	\$	25,360	Dividends	\$	6,000
Accounts receivable		22,360	Consulting fees earned		27,000

Compute the missing amount for each of the following separate companies a through d

	a.	b.	c.	d.
Beginning of the year equity	\$0	\$0	\$0	\$0
Owner investments for stock	110,000	42,000	87,000	210,000
Dividends during the year	(28,000)	(47,000)	(10,000)	(55,000)
Net income (loss)	22,000	90,000	(4,000)	(45,000)
End of the year equity	<u>\$104,000</u>	<u>\$85,000</u>	<u>\$73,000</u>	<u>\$110,000</u>

Compute the missing amount for each of the following separate companies a through d

	a.	b.	c.	d.
Beginning of the year equity	\$0	\$0	\$0	\$0
Owner investments for stock	91,000	100,000	84,215	200,000
Dividends during the year	(85,000)	(50,000)	(9,000)	(55,000)
Net income (loss)	87,000	40,000	(5,000)	(45,000)
End of the year equity	<u>\$93,000</u>	<u>\$90,000</u>	<u>\$70,215</u>	<u>\$100,000</u>

Exercise 2-20 page 86

Posting errors are identified in the following table. In column (1), enter the amount of the difference between the two trial balance columns (debit and credit) due to the error. In column (2), identify the trial balance column (debit or credit) with the larger amount if they are not equal. In column (3), identify the account(s) affected by the error. In column (4), indicate the amount by which the account(s) in column (3) is under- or overstated. Item (a) is completed as an example.

Description of Posting Error	(1) Difference between Debit and Credit Columns	(2) Column with the Larger Total	(3) Identify Account(s) Incorrectly Stated	(4) Amount that Account(s) is Over-or Understated
a. \$3,600 debit to Rent Expense is posted as a \$1,340 debit				
b. \$6,500 credit to Cash is posted twice as two credits to Cash				
c. \$10,900 debit to the Dividends account is debited to Common Stock.				
d. \$2,050 debit to Prepaid Insurance is posted as a debit to Insurance Expense.				
e. \$38,000 debit to Machinery is posted as a debit to Accounts Payable.				
f. \$5,850 credit to Services Revenue is posted as a \$585 credit.				
g. \$1,390 debit to Store Supplies is not posted.				

Description of Posting Error	(1) Difference between Debit and Credit Columns	(2) Column with the Larger Total	(3) Identify Account(s) Incorrectly Stated	(4) Amount that Account(s) is Over-or Understated
a. \$3,600 debit to Rent Expense is posted as a \$1,340 debit	\$2,260	Credit	Rent Expense	Understated by \$2,260
b. \$6,500 credit to Cash is posted twice as two credits to Cash	\$6,500	Credit	Cash	Understated by \$6,500
c. \$10,900 debit to the Dividends account is debited to Common Stock.	\$0	N/A	Common Stock	Understated by \$10,900
d. \$2,050 debit to Prepaid Insurance is posted as a debit to Insurance Expense.	\$0	N/A	Prepaid Insurance	Understated by \$2,050

f. \$5,850 credit to Services Revenue is posted as a \$585 credit.	\$5,265	Debit	Service Revenue	Understated by \$5,265
g. \$1,390 debit to Store Supplies is not posted.	\$1,390	Credit	Store Supplies	Understated by \$1,390

Posting errors are identified in the following table. In column (1), enter the amount of the difference between the two trial balance columns (debit and credit) due to the error. In column (2), identify the trial balance column (debit or credit) with the larger amount if they are not equal. In column (3), identify the account(s) affected by the error. In column (4), indicate the amount by which the account(s) in column (3) is under- or overstated. Item (a) is completed as an example.

Description of Posting Error	(1) Difference between Debit and Credit Columns	(2) Column with the Larger Total	(3) Identify Account(s) Incorrectly Stated	(4) Amount that Account(s) is Over-or Understated
a. \$4,300 debit to Rent Expense is posted as a \$1,360 debit				
b. \$5,800 credit to Cash is posted twice as two credits to Cash				
c. \$12,000 debit to the Dividends account is debited to Common Stock.				
d. \$3,100 debit to Prepaid Insurance is posted as a debit to Insurance Expense.				
e. \$20,000 debit to Machinery is posted as a debit to Accounts Payable.				
f. \$9,500 credit to Services Revenue is posted as a \$950 credit.				
g. \$1,900 debit to Store Supplies is not posted.				

Description of Posting Error	(1) Difference between Debit and Credit Columns	(2) Column with the Larger Total	(3) Identify Account(s) Incorrectly Stated	(4) Amount that Account(s) is Over-or Understated
a. \$4,300 debit to Rent Expense is posted as a \$1,360 debit	\$2,940	Credit	Rent Expense	Understated \$2,940
b. \$5,800 credit to Cash is posted twice as two credits to Cash	\$5,800	Credit	Cash	Understated by \$5,800
c. \$12,000 debit to the Dividends account is debited to Common Stock.	\$0	N/A	Common Stock	Understated by \$12,000
			Dividends	Understated by \$12,000
d. \$3,100 debit to Prepaid Insurance is posted as a debit to Insurance Expense.	\$0	N/A	Prepaid Insurance	Understated by \$3,100
			Insurance Expense	Overstated by \$3,100
e. \$20,000 debit to Machinery is posted as a debit to Accounts Payable.	\$0	N/A	Machinery	Understated by \$20,000
			Accounts Payable	Understated by \$20,000
f. \$9,500 credit to Services Revenue is posted as a \$950 credit.	\$8,550	Debit	Service Revenue	Understated by \$8,550
g. \$1,900 debit to Store Supplies is not posted.	\$1,900	Credit	Store Supplies	Understated by \$1,900

Exercise 2-21 page 86

You are told the column totals in a trial balance are not equal. After careful analysis, you discover only one error. Specifically, a correctly journalized credit purchase of an automobile for \$18,950 is posted from the journal to the ledger with a \$18,950 debit to Automobiles and another \$18,950 debit to Accounts Payable. The Automobiles account has a debit balance of \$37,100 on the trial balance. Answer each of the following questions and compute the dollar amount of any misstatement.

Automobiles	
Balance	37,100

- Is the debit column total of the trial balance overstated, understated, or correctly stated?
- Is the credit column total of the trial balance overstated, understated, or correctly stated?
- Is the Automobiles account balance overstated, understated, or correctly stated in the trial balance?
- Is the Accounts Payable account balance overstated, understated, or correctly stated in the trial balance?
- If the debit column total of the trial balance is \$200,000 before correcting the error, what is the total of the credit column before correction?

	General Journal	Debit	Credit
	Automobiles	18,950	
	Accounts Payable		18,950

Assume Accounts payable related to all other items is \$55,000.

Should have been:

Automobiles	
18,150	
18,950	
Balance	37,100

Accounts Payable	
	55,000
	18,950
Balance	73,950

With error:

Automobiles	
18,150	
18,950	
Balance	37,100

Accounts Payable	
	55,000
18,950	
Balance	36,050

- Is the debit column total of the trial balance overstated, understated, or correctly stated? **Correctly Stated**
- Is the credit column total of the trial balance overstated, understated, or correctly stated? **Understated by \$37,900**
- Is the Automobiles account balance overstated, understated, or correctly stated in the trial balance? **Correctly Stated**
- Is the Accounts Payable account balance overstated, understated, or correctly stated in the trial balance? **Understated by \$37,900**
- If the debit column total of the trial balance is \$200,000 before correcting the error, what is the total of the credit column before correction? **\$162,100**

You are told the column totals in a trial balance are not equal. After careful analysis, you discover only one error. Specifically, a correctly journalized credit purchase of an automobile for \$20,000 is posted from the journal to the ledger with a \$20,000 debit to Automobiles and another \$20,000 debit to Accounts Payable. The Automobiles account has a debit balance of \$57,000 on the trial balance. Answer each of the following questions and compute the dollar amount of any misstatement.

Automobiles	
Balance	57,000

- Is the debit column total of the trial balance overstated, understated, or correctly stated?
- Is the credit column total of the trial balance overstated, understated, or correctly stated?
- Is the Automobiles account balance overstated, understated, or correctly stated in the trial balance?
- Is the Accounts Payable account balance overstated, understated, or correctly stated in the trial balance?
- If the debit column total of the trial balance is \$260,000 before correcting the error, what is the total of the credit column before correction?

	General Journal	Debit	Credit
	Automobiles	20,000	
	Accounts Payable		20,000

Assume Accounts payable related to all other items is \$55,000.

Should have been:

Automobiles	
37,000	
20,000	
<hr/>	
Balance	57,000

Accounts Payable	
	55,000
	20,000
<hr/>	
Balance	75,000

With error:

Automobiles	
37,000	
20,000	
<hr/>	
Balance	57,000

Accounts Payable	
	55,000
20,000	
<hr/>	
Balance	35,000

- a. Is the debit column total of the trial balance overstated, understated, or correctly stated? **Correctly Stated**
- b. Is the credit column total of the trial balance overstated, understated, or correctly stated? **Understated by \$40,000**
- c. Is the Automobiles account balance overstated, understated, or correctly stated in the trial balance? **Correctly Stated**
- d. Is the Accounts Payable account balance overstated, understated, or correctly stated in the trial balance? **Understated by \$40,000**
- e. If the debit column total of the trial balance is \$260,000 before correcting the error, what is the total of the credit column before correction? **\$220,000**
