Chapter 1 Quiz

True/False Items

1. T or F When the profession of career counseling originated, the economy of the United States was especially strong and jobs were plentiful.
2. T or F Prior to the industrial revolution, careers tended to be determined by type of work one's parents' did.
3. T or F After publishing his book *Choosing a Vocation*, Frank Parsons delivered a famous speech at the Boston Vocational Bureau.
4. T or F Whereas workers could once reasonably expect to retire comfortably by the age of 65, this is no longer the case.
5. T or F Interfirm mobility is the primary emphasis of a protean career.
6. T or F Career success in new, post-Globalization era calls for higher levels of self-directedness as it pertains to one's career trajectories.
7. T or F Ambitious employees today should demonstrate loyalty and focus upon advancement opportunities with their current employers.
8. T or F There is generally agreement that career identity is only tangentially related to one's sense of self.
9. T or F During the industrial revolution, many people moved from the rural, agrarian areas in which their families lived to cities in which they could easily find work in the manufacturing industry.

10. T or F The overall impact of the industrial revolution is that it offered people more opportunities to pursue personally satisfying careers.
11. T or F The United States had a largely agrarian economy after the industrial revolution.
12. T or F Given the radical changes that have occurred in the world of work and the pressing needs of many people for assistance with career planning, job searching, and career management, there is a strong need for career counselors.
13. T or F Lower-skill level jobs are more likely to be offshored than jobs that require higher level skills.
14. T or F Most workers in the future will need to reinvent their careers to keep up with a fast changing workplace.
15. T or F National statistical data indicate that people with a bachelor's degree have a higher unemployment rate than people with an associate's degree.
16. T or F Early in the counseling process, career counselors should offer advice about client concerns so as to establish credibility.
17. T or F The beginning of globalization can be traced back to the 1980s.

Multiple Choice. For each of the following items, circle the response that best answers the question.

1. Identify the technological advance(s) associated with the industrial revolution.
 - a. Assembly Line
 - b. Harnessing of electricity
 - c. Mass Production
 - d. Railroad Expansion
 - e. All of the Above
 - f. A and C
2. Frank Parsons is recognized as:
 - a. The father of vocational guidance
 - b. The father of career counseling
 - c. The father of counseling
 - d. All of the Above
 - e. A and B
