Essay

76. What are the characteristics of an emotionally healthy person? What are the characteristics of a mentally healthy person?

ANSWER:

Characteristics of an emotionally healthy person include a determination and effort to be healthy, flexibility and adaptability, a sense of meaning and affirmation in life, compassion for others, unselfishness in serving and relating to others, increased depth and satisfaction in

	intimate relationships, and a sense of control over mind and body. Characteristics of a mentally healthy person include an ability to function and carry out responsibilities, an ability to form relationships, realistic perceptions of the motivations of others, rational, logical thought processes, and an ability to adapt to change and cope with adversity.

78. Discuss why being assert	rtive works to effect the change you want, whereas being either aggressive or passive does not.	
ANSWER:	Being assertive requires recognizing your feeling and making your needs and desires clear to others. Unlike aggression, a far less healthy means of expression, assertiveness usually works. You can change a situation you don't like by communicating your feelings and thoughts in non-provocative	
	words, by focusing on specifics, and by making sure you're talking with the person who is directly responsible. Many people have learned to cope by being passive and not communicating their feelings or opinions. Sooner or later they become so irritated, frustrated, or overwhelmed that they explode in an outburst—which they think of as being assertive. However, such behavior is so distasteful to them	
	that they'd rather be passive. But assertiveness doesn't mean screaming or telling someone off. You can communicate your wishes calmly and clearly. Assertiveness is a behavior that respects your rights and the rights of other people even when you disagree.
