ESSAY

1. Define the organizational task environment. List the four things this environment includes that could influence an organization.

ANS:
The task environment include the sectors that conduct day-to-day transactions with the organization and directly influences its basic operations and performance.

The environment includes: competitors, suppliers, customers, and the labor market.

PTS: 1 DIF: 2 REF: 56
NAT: AACSB: Analytic | AACSB: Environmental Influence MSC: F

2. Name the six dimensions of the general environment and describe each dimension.

ANS:
The six dimensions of the general environment are international, sociocultural, economic, legal-political, technological, and natural. International dimension refers to events originating in foreign countries as well as opportunities for American companies in other countries. Technological dimension refers to the scientific and technological advancements within a specific industry and society. Sociocultural dimension represents the demographic characteristics of the general population. Economic dimension represents the general economic health of the country or area in which the organization operates. Legal-political dimension refers to the local, state, and federal regulations and the political activities designed to influence company behavior. The natural dimension includes all elements that occur naturally on earth, including plants, animals, rocks, and natural resources such as air, water, and climate.

PTS: 1 DIF: 2 REF: 57-62
NAT: AACSB: Analytic | AACSB: Environmental Influence MSC: F

3. Briefly describe the task environment and its four primary sectors.

ANS:
The task environment is the portion of the external environment that directly influences the organization's operations and performance. The task environment is made up of customers, competitors, suppliers, and the labor market. These sectors typically conduct day-to-day transactions with the organization.

PTS: 1 DIF: 2 REF: 63
NAT: AACSB: Analytic | AACSB: Environmental Influence MSC: F

4. What are the three basic strategies for dealing with increased uncertainty with respect to customers, competitors, suppliers, or government regulations?

ANS:

The three basic strategies are boundary-spanning roles, interorganizational partnerships, and mergers or joint ventures.

PTS: 1 DIF: 2 REF: 67
NAT: AACSB: Analytic | AACSB: Environmental Influence MSC: F

5. Based on the model in the text, discuss the relationship between external environmental characteristics and uncertainty.

ANS:

The external environment can be evaluated along two dimensions. First, one can evaluate (high to low) a number of factors in the environment. Second, one can evaluate (high to low) the rate of change of those factors. When both variables are low, low uncertainty characterizes the external environment. When both variables are high, the external environment is marked by a high level of uncertainty. A highly uncertain environment requires organizations to adapt and/or attempt to influence the external environment.

PTS: 1 DIF: 3 REF: 67
NAT: AACSB: Analytic | AACSB: Environmental Influence MSC: F

6. Discuss the different levels of culture.

ANS:

Culture can be analyzed at two levels. At the surface, there are the visible representations of culture, such as ceremonies and patterns of behaviors. These representations are easily observable. Visible artifacts are all the things one can see, hear, and observe by watching members of the organization. At a deeper level are values and beliefs. These ideas and values can be identified through an analysis of such things as symbols and stories.

PTS: 1 DIF: 3 REF: 70
NAT: AACSB: Analytic | AACSB: Group Dynamics MSC: F

7. List the four categories of culture and describe what kind of environments each fit best in.

ANS:

Adaptability culture fits best in fast response and high-risk decision making environments. Achievement culture fits best in results-oriented cultures that value competitiveness, aggressiveness, personal initiative, and willingness to work long and hard to achieve results. Involvement culture fits best in internal and employee-need focused environments where the organization is seen as having a caring, family-like atmosphere. Consistency culture fits best in internal focused organization that has a consistency orientation for a stable environment.

PTS: 1 DIF: 2 REF: 74-75
NAT: AACSB: Analytic | AACSB: Group Dynamics MSC: F

8. Briefly discuss the two key areas that cultural leaders influence culture.

The cultural leader articulates a vision for the organizational culture that employees can believe in and that generates excitement. This means the leader defines and communicates central values that employees believe in and will rally around.

The cultural leader heeds the day-to-day activities that reinforce the cultural vision. The leader makes sure that work procedures and rewards systems match and reinforce the values. Actions speak louder than words, so cultural leaders "walk their talk."
